Subject: Father's Day

[REDACTED]

Hi all.

I've been doing a lot of thinking about Mother's and Father's Day and looking at it through an equity lens. As you know, not all families are the same and both of those days can cause undo stress on students whose experience is different from the "norm".

With that thinking, I've decided not to do a Father's Day gift here in class and I'm hoping you understand.

Know that I appreciate all the fathers in my students' lives and that I hope they celebrate you the way you deserve.
