Hi John - we have another FOIA request that needs your help!
Themes are similar to the last FOIA request we completed.

Take a look below and provide your response / records by Thurs at Noon please.

Let me know if you have any questions!

Best,
Tanya

Request (1): Copies of all surveys created by the school district or by third party companies, including but not limited to Panorama and Community Youth Survey ([cys.ai](#)), that were administered to students between August 1, 2021 through May 1, 2022 for grades K-12.

Response (1): DONE. We've provided the same surveys, Panoram and Community Youth Survey (as the the only two existing surveys) that were sent w/the last FOIA request.

Request (2): Copies of all contracts with external companies or contractors, including but not limited to Panorama and Community Youth Survey ([cys.ai](#)), who were contracted to create and/or administer surveys administered to students in either district between August 1, 2021 through May 1, 2022.

Response (2): Do you have the "signed" Community Youth Survey contract / agreement? I have the one already from Panorama.

Request (3): Copies of any e-mail correspondence, text messages, faxes or other written communication regarding contracts with external companies or contractors, including but not limited to including Panorama and Community Youth Survey ([cys.ai](#)), who were contracted to create and/or administer surveys administered to students in either district between August 1, 2021 through May 1, 2022.

Response (3): To be consistent with other FOIAS, will ask Jordan to search email communications. It's likely the search will produce a record count that is unduly burdensome, and from which we can then ask the requestor to narrow their search.

Request (4): Copies of any formal or informal policies adopted by either district pertaining to the development and/or administration of student or employee surveys.

Response (4): Does anything exist? Or is there anything captured in the Board Policy Manual on the website (the yellow button): <https://drive.google.com/drive/folders/18vq28941D6PFWRQUXD5s3Gus4dg-jPDX>

Request (5): Copies of any formal or informal policy that applies to the collection, disclosure, or use of personal information collected from students for marketing purposes.

Response (5): Does anything exist? Or is there anything captured in the Board Policy Manual on the website (the yellow button): <https://drive.google.com/drive/folders/18vq28941D6PFWRQUXD5s3Gus4dg-jPDX>

Maybe Section / Records 7 shown below? (I haven't reviewed carefully to confirm..)

| | |
|-------------------|--|
| 7:280 | Communicable and Chronic Infectious Disease |
| 7:285 | Food Allergy Management Program |
| 7:290 | Suicide and Depression Awareness and Prevention |
| <u>Activities</u> | |
| 7:300 | Extracurricular Athletics |
| 7:305 | Student Athlete Concussions and Head Injuries |
| 7:310 | RESERVED |
| 7:315 | Restrictions on Publications; High Schools |
| 7:320 | OPEN |
| 7:325 | Student Fundraising Activities |
| 7:330 | Student Use of Buildings - Equal Access |
| <u>Records</u> | |
| 7:340 | Student Records |
| 7:345 | Use of Educational Technologies; Student Data Privacy and Security |

Request (6): Copies of any formal or informal policy that applies to the collection, disclosure or use of student personal information, including the use of surveys, for developing, evaluating, or providing educational products or services for, or to, students or educational institutions.

Response (6): Does anything exist? Or is there anything captured in the Board Policy Manual on the website (the yellow button): <https://drive.google.com/drive/folders/18vq28941D6PFWRQUXD5s3Gus4dg-jPDX>
Same note. Maybe Section / Records 7 shown above? (I haven't reviewed carefully to confirm..)

Request (7): Copies of any and all notices to develop pursuant to the Protection of Pupil Rights Amendment (PPRA), 20 U.S.C. § 1232h, which requires school districts to notify parents and obtain parental consent and/or allow parents to opt their child out of participating in certain school activities.

Response (7): Understand from the other FOIA we completed, there were no opt-out notifications, no information provided to parents in connection w/ Panorama and Community Youth Survey.
We will respond here as: There are no records in the District's possession responsive to your request.

You are right that this particular sentence allows a family to 'opt out' & request an alternative assignment, but I am not sure where to draw the line on this one. I'd be interested in the perspectives of others. It should be noted here, however, that for the Sex Ed unit, families are either opting in or out of the entire unit. The Joint Policy committee was not entertaining a process by which Wellness teachers would be trying to juggle each & every individual lesson & finding an alternative assignment every time that student wanted to opt out of just that 1 day lesson.

I am happy to meet to discuss further if needed.

Thanks

With regards to an Opt Out for CYS, I just read this from the [PPRA \(FOIA\) website](#):

What if the survey is anonymous?

Unless there is absolutely no way for the school or third party to discover which answers on a survey came from which student – and, with the exception of most multiple-choice surveys, this is unlikely – PPRA’s notification and review requirements will also apply to “anonymous” surveys given to students.

I believe the CYS survey is all multiple choice and completely anonymous-

Life Insurance Companies That Don't Pay Death Benefits?

MAY 2022 E-NEWSLETTER

Treasurer's Note

Life Insurance Companies That Don't Pay Death Benefits?

I didn't believe it, either.

Life insurance companies choosing to not pay death benefits even when they know, or should have known, their customer passed away.

The Illinois State Treasurer's Office uncovered this issue because there are life insurance policies here and in every other state that go unpaid and become unclaimed property. An [example](#) is when a church-going person passes away, names the congregation as a beneficiary, but does not tell the [pastor](#) or church leaders. The church never claimed the benefits because they did not know they were a beneficiary. Eventually, those benefits should be remitted to the treasurer's office as unclaimed property.

But, we heard too many examples like the [woman who](#) adopted her friend's severely learning disabled teenage boys after a tragic car accident or [children](#) of veterans and coal miners where the insurance company never contacted the beneficiaries.

Not paying death benefits is fundamentally unfair. It literally keeps money from widows and orphans. Who purchases a life insurance policy with the intention the money will stay with the company rather than the family?

That is why we fought to change the law. The opposition was fierce, especially from big life insurance corporations. They hired expensive lobbyists to try to stop us. One even sued us to stop the Treasurer's Office from examining their records. They flatly stated that they had "no affirmative obligation" to find and pay beneficiaries.

Eventually, with the help of great partners such as the VFW, the Catholic Conference of Illinois, Citizen Action Illinois, AARP, and the NAACP, we prevailed. It took two years, two different public acts, a legal settlement, and even an override of a Governor's veto. But we overcame the special interests and their lobbyists.

Now, under Illinois law, life insurance companies are required to see if their customers have passed away. If a customer has passed away, and their beneficiaries have not claimed the benefits they are owed, the insurer has to notify the beneficiaries. If they cannot find the beneficiaries, those benefits have to be turned over to the State Treasurer as unclaimed property.

At the time we changed the law, auditors working for the State Treasurer's Office already found more than \$550 million in death benefits that were not paid to grieving families in Illinois. The Wall Street Journal reported that, nationally, the figure was more than \$7.4 billion. Now in 2022, we have found more than \$800 million for families in Illinois.

We also included a key provision in our legislative efforts: The audits that initially identified the issue must continue. Yes, the insurance companies said they would follow the enhanced rules. But, as a President, and son of Illinois, once said: Trust, but verify.

Because of these audits, and the hard-won changes in Illinois law, we are connecting people with millions of dollars they are owed every year. In the coming weeks, we hope to pay one man nearly \$90,000 from two unpaid life insurance policies. Each was found through an audit. The insured passed away 20 years ago in 2002; the beneficiary has lived in the same house even longer.

Every time we pay a life insurance benefit especially one found in an audit I am reminded that the late night battles are worthwhile.

I'm also reminded that the people of Illinois deserve no less.

US Coins

Coin Shortage Again

Coins are in short supply again.

That is why the business community seeks Treasury Department help to convince Americans to start spending their pennies, nickels, dimes and quarters so more coins are pushed into circulation. A group of trade associations that represent retail outlets, laundromats, truck stops and grocery stores leads the effort.

If you have access to a debit or credit card, or even own your own washer and dryer, you likely are unaware of the coin shortage. However, an estimated 22 percent of Americans were “unbanked” or “underbanked” in 2019, according to the Federal Reserve, citing the latest data available.

Retailers genuinely are concerned about making change for their cash-customers. So is the banking community. The coins exist. Consumers simply are not using them.

That is why these business groups are calling for a campaign to increase coin circulation. Individuals can help by spending coins with retailers, taking coins to their bank and credit union, or using a coin recycling kiosk.

Tax Refund

Your Money

Tax Refund Time

Will you receive a tax refund this year?

The average federal tax refund last year was \$2,800, according to the IRS. The average Illinois state tax refund was \$3,724, according to 24/7 Wall Street, which used 2019 data.

What to do with your tax refund? The possibilities are endless. However, sound financial examples include:

Pay Your Bills

Start with the basics. Catch-up on rent, utilities and loans. Attack credit card debt, starting with the highest interest rate. Focus on progress: to eliminate debt, you first must reduce it.

Create an Emergency Fund

In a perfect world, a family has an emergency fund equal to six months of living expenses. However, not many people live in a perfect world. That is why we should not let perfect be the enemy of good. Use your tax refund, at least part of it, to start an emergency fund in a low-risk account to which you have easy access (often called liquidity). As the old saying goes, “Pay yourself first.”

Open a Bright Start College Savings Account

This savings plan often is called a 529 account. [An account can be opened](#) by an individual. The account grows tax free when used for approved college expenses, such as tuition, room and board, books, or a computer. A child is three times more likely to attend college when they know they have a dedicated savings account for higher education. A 529 plan also can be used for qualified vocational training expenses. In Illinois, some contributions qualify for a tax deduction.

Contribute to Your IRA

Social Security alone will not provide enough income when your working days are over. To retire with dignity, you need to save today. Take some of your tax return and consider opening an IRA. If your employer offers a 401(k), now is a great time to make sure you contribute enough to maximize the employer match and more if you are able.

Donate to Charity

Take a portion of your tax return and donate it to a charity you support. Every bit helps. No tax return this year? You still can donate your time.

Live Webinar Recording: Distributed Leadership

Presented by Ann Persson

With an impending teacher shortage and veterans leaving the classroom at unprecedented rates, keeping our educators in the classroom has become a widespread goal for all administrators and schools. While there are many reasons why teachers leave, one evidenced-based reason that they stay is when they are provided with additional leadership opportunities within their schools. Creating distributed leadership structures in schools is one way to accomplish this. This session will explore the key principles of distributed leadership and how administrators can put these practices into action. Administrators will leave this session having explored these key principles and with an introduction for how to build, support, and sustain distributed leadership structures in their schools.

On Wed, Apr 6, 2022 at 1:04 PM Dan O'Neil <doneil12@hotmail.com> wrote:

Dear Ms. Dornik and Dr. Hermes:

The Protection of Pupil Rights Amendment, 20 U.S.C. § 1232h ("PPRA"), allows parents, among other things, to prevent schools from asking highly personal questions about students' sex lives, drug usage, and matters of this nature without parental consent. The PPRA provides parents with the right to opt their children out of certain activities at any school that receives federal funding.

More specifically, the PPRA requires any school to ask and obtain from parents prior written consent allowing their children to (a) participate in any study that the school is requiring; (b) participate in any school activity (including a group activity) not directly related to academic instruction and that is designed, rather, to elicit information about attitudes, habits, traits, opinions, beliefs or feelings; or (c) participate in any school activity involving the planned, systematic use of methods or techniques that are not directly related to academic instruction and that are designed, instead, to affect behavioral, emotional, or attitudinal characteristics of an individual or group (including political beliefs or affiliations, sexual attitudes or behavior, etc.). If the parents do not consent, then the school is prohibited from requiring a child to participate.

In this context, under the Protection of Pupil Rights Amendment, 20 U.S.C § 1232h, I request:

A. Copies of all surveys and related documents given to my child at Lake Forest High School, during the current academic school year, asking for information concerning or related to:

1. **political affiliations or beliefs of the student or the student's parents;**
2. **mental or psychological problems of the student or the student's family;**
3. **sex behavior or attitudes;**
4. **illegal, anti-social, self-incriminating, or demeaning behavior;**
5. **critical appraisals of other individuals with whom respondents have close family relationships (this should include all material related to "white privilege" or "anti-racism");**
6. **legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;**
7. **religious practices, affiliations, or beliefs of the student or student's parents; or**
8. **income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).**

B. Copies of the opt-out notifications provided to parents in connection with the above.

Thank you for your assistance with this request. I look forward to your prompt reply.

Sincerely,

Dan O'Neil

eln roster updates

UPDATING ROSTERS FOR 2022-23

As we close the chapter on another successful school year, it's never too soon to start preparing for the next. The Illinois State Board of Education has renewed its commitment to providing all public-school educators in the state free access to Ed Leaders Network (ELN) for another five years. [Download](#) the spreadsheet template to update your staff rosters for the 2022-23 school year. Submit as soon as possible to support@edleadersnetwork.org so your staff has full access to all state mandated trainings that become available July 1. Once you have completed your state mandated trainings, check out the additional professional learning opportunities available through ELN learning library. Don't miss the series on teacher evaluation calibration which will prepare you for the required administrator academies to evaluate your teaching staff. For more information about ELN or to schedule a 30-minute ELN manager training, email the Ed Leaders Network Director at arlin@ilprincipals.org.

Gift prep

Let Alexa help you plan your gifts for moms in your life. Just say:

“Alexa, give me gift ideas for Mother's Day.”

“Alexa, remind me to order flowers.”

“Alexa, what are today's deals?”

Timers

Cooking with Alexa

Get all the help you can from Alexa while cooking for your mom. Just say:

“Alexa, tell me easy breakfast recipes.”

“Alexa, how do I bake a chocolate cake?”

“Alexa, add orange juice to my shopping list.”

Alexa.

Have fun with Alexa

Try these fun commands with mom. Just say:

“Alexa, recite a poem.”

“Alexa, tell me a Mom joke.”

“Alexa, who is your mom?”

P4PB Email Header

Hi Patrick,

From the classroom to the central office, educators are struggling to manage an increase in behavior incidents since returning to in-person learning.

[Panorama for Positive Behavior](#) brings together the tools, systems, and insights you need to build educator capacity for improved student outcomes. With its proactive, educator-focused approach to boosting student engagement and behavior, Panorama's newest solution offers you the opportunity to expand our partnership to continue fostering the safe, positive school climates where all students thrive.

Behavior Logging Mock-1

For school and district leaders:

- Drive effective system-level supports with district, school, teacher, and student-level metrics

- Identify where to target supports based on in-platform and up-to-date behavior incident logging and reports
- Automate nightly exports of major incidents for student information systems (SIS) to avoid double data entry and to meet reporting requirements

For teachers, counselors, and interventionists:

- Log major and minor behavior incidents on a mobile or desktop device
- Promote positive student behavior with our Behavior Boost app, leveraging low-lift, evidence-based strategies like behavior-specific praise
- See the impact of your practice on student behavior and engagement

To learn about adding Panorama for Positive Behavior, please [get in touch with us here](#) or reach out to your Panorama project team!

We're making some updates to Venmo and the [Venmo User Agreement](#), including changes to 1) the arbitration provision in the User Agreement that will affect how claims you and PayPal have against each other are resolved, and 2) the fees charged for instant transfers.

1. Under the revised arbitration provision, you will, with limited exception, still be required to submit claims you have against PayPal in connection to the Venmo service to binding and final arbitration unless you opt out of the Agreement to Arbitrate by following the directions in the [Venmo User Agreement](#) by June 22, 2022.

Unless you opt out, the Agreement to Arbitrate:

- a. provides that you will only be permitted to pursue claims against PayPal on an individual basis, not as a plaintiff or class member in any class or representative action or proceeding;
- b. provides that you will only be permitted to seek relief (including monetary, injunctive, and declaratory relief) on an individual basis;
- c. provides that prior to bringing any dispute or claim in arbitration, you or PayPal must submit a Notice of Dispute to the other party; and

- d. provides that if the value of the relief sought is \$10,000 or less, at your request, PayPal will pay all arbitrator fees associated with the arbitration.

2. Effective May 23, 2022, [the fee for instant transfers](#) will be 1.75% per instant transfer (\$0.25 minimum fee, \$25 maximum fee).

As always, you can view the [Venmo User Agreement](#), Privacy Policy, and other Venmo policies in your Venmo app Settings or by visiting [Venmo.com](#) and clicking 'Legal' at the bottom of the page.

If you have questions about any of these changes or your Venmo account, please don't hesitate to [get in touch](#) with us.

Thank you for being a Venmo customer.

Sincerely, Venmo, a PayPal service

Do We Have Your Money?

[View online version](#)

[Photo of Treasurer and logo](#)

APRIL 2022 E-NEWSLETTER

Note

Do We Have Your Money?

Newspapers do publish good news.

This month, in your local newspaper, you might find an advertisement for our Unclaimed Property program. State law requires us to publish these advertisements at least twice each year. In Illinois, tradition has it that the advertisements occur in April and October. We use a competitive-bid process in deciding which newspapers to choose.

Unclaimed property – also known as ICash - is one of the state's oldest consumer-protection initiatives. In Illinois, the state treasurer is tasked with safeguarding unclaimed property, such as unpaid life insurance benefits, forgotten bank accounts, and unused rebate cards. Illinois holds more than \$3.5 billion in unclaimed property and one-in-four people who search our public database finds money that belongs to them.

Do we have your money? You can [search here](#).

Unclaimed property enforces a simple rule most of us learned in pre-school: When you have something that belongs to someone else, you must return it. **The state treasurer is legally required to return the property to the rightful owners no matter how long it takes.** Without the unclaimed property program, billions of dollars would be kept from their owners.

Newspaper advertising works for many people. However, it is not the only channel we use to inform people of unclaimed property. For maple, we strive for what is called “earned media,” such as when we visit a town and invite the local newspaper reporter to write a story for the next edition.

When I was elected, unclaimed property was a clumsy, cumbersome, paper-driven system that had been ignored for years. It was the exact opposite of user-friendly and it had to change. To achieve that change, we had to change state law. We worked with Democrats and Republicans to create better, easier ways to serve the taxpayers of Illinois.

First, we instituted an electronic claims system that allowed users to upload documents and use e-signatures. These basic, commonsense improvements should have been done years ago. Working together, in a bipartisan manner, we made it happen.

Next, we created Fast Track, which automates the process for simple claims valued at less than \$2,000. After an individual files an electronic claim, we use publicly available data to confirm the information and issue the person a check. It is faster, more efficient, and more economical because the automated review does not need human intervention, which saves everyone time and money. So far, Fast Track has allowed us to pay 300,000 people more than \$31 million.

Then, we created Money Match. This allows us to use existing data to confirm a person has unclaimed property and then we simply send the person a check without even filing a claim. Through Money Match, we have paid 130,000 Illinois taxpayers \$14 million.

These advancements have allowed us to return more than \$1.3 billion and triple the number of claims we approve each year. When we set aside our differences and work together to find common ground for the common good, we can make all of our lives a little easier.

Working together. Finding solutions. Putting people first. At the Illinois State Treasurer's Office, we are Invested in You.

Sincerely,

Michael W. Frerichs

Illinois State Treasurer

Financial Literacy

Financial Literacy Month

It's Never Too Early to Learn

April is financial literacy month, a time to raise awareness about financial literacy and promote financial education.

It is never too early to teach children about finances. As with most learners, children are more likely to retain knowledge when they participate in the lesson, rather than just listening to a lecture.

For example, a child is more likely to understand the concept of savings and accruing interest when they can “see” the money.

If possible, an allowance is a perfect way to teach children about savings. The allowance can be tied to specific expectations, such as age-appropriate tasks at home. Finally, the child should be encouraged to save a portion of their earnings as well as to spend a portion. Doing so involves goal-setting and discipline, which adds to the lesson.

Learning these lessons at an early age working, saving, goal-setting, discipline will help individuals as they grow and mature through life. It also will help to avoid costly mistakes.

More on financial literacy for young people can be found [here](#).

Cream of the Crop

Grab Your Cameras

Cream of the Crop Photo Contest

Illinois State Treasurer Michael Frerichs encourages young photographers to submit pictures for the 2022 Cream of the Crop Photography Contest.

The contest encourages students to share their vision of agriculture in our state.

"We are calling on our young photographers to use their imagination to showcase why Illinois is a leader in the agricultural industry with its rich soil, diversity in products, and millions of acres of farmland," Frerichs said. "We want to encourage students to grab their cameras, get out, and explore the beauty Illinois has to offer."

The treasurer's office will accept electronic submissions for the contest at www.creamofthecropcontest.com. Top photographs will be chosen in three age-based categories: ages 8-10, 11-14 and 15-18. Each student is permitted to submit up to two photos.

The photo contest is part of the Ag Invest program. Winning photos will be featured in Ag Invest marketing material, the Cream of the Crop Calendar and the 2022 Illinois State Fair.

Ag Invest is one of the nation's largest agricultural linked deposit programs. It helps hundreds of Illinois farmers and agriculture professionals. The treasurer's office, through Ag Invest, partners with eligible financial institutions to offer farmers and ag businesses annual and long-term, low-interest loans which can be used for operating costs, equipment purchases, construction-related expenses, and livestock purchases.

To read the rules, terms, and legal conditions, visit our website at www.CreamoftheCropContest.com.

Did You Know?

Everyone should be able to retire with dignity.

Illinois Secure Choice offers the opportunity to do just that.

Illinois Secure Choice is a retirement savings program that travels with the worker.

It operates through the Illinois State Treasurer's Office and is for employers who do not offer a retirement plan. It is administered by a private-sector financial services firm; funded by employee savings with no employer fees or contributions; and employee participation is voluntary.

Secure Choice is good for workers, good for employers, and good for communities. Find out more at ilsecurechoice.com.

NEW WEBINAR RECORDING

Empathy, Equity, and Agency in K-12: How to Teach It and Why

In this webinar, Zoë Jenkins will discuss why teaching empathy, equity, and agency is integral to preparing students to be engaged, civic actors. Zoë will discuss her path through K-12, including why she chose to drop out her senior year and pursue education reimagining full-time. She will explore the numerous ways K-12 is built to stifle these values and what educators can do to model them in their classrooms and empower their students to be empathetic, seek equity, and understand their agency.

Dear Erin and Matt,

It has come to my attention that on Challa Holland's way out the door, she contracted with the company Panorama to provide curriculum at LFHS. It has now come to my attention that there are student surveys being given to our children by Panorama.

As you well know Panorama is owned by US AG Merrick Garlands son. Merrick Garland in the Fall of 2021 claimed that parents using their voices (to protest at school board meetings what thier children were being

subjected to via school closures, forced masking, and CRT curriculum implementation), were domestic terrorists. Garland mobilized the FBI against the parents. Now his son's company is invasively questioning and monitoring my child with questions related to sexual and political affiliation without our permission?

How could your administration allow this to happen? How can you do this without the permission of parents? Why were never given the option to opt out of these surveys? Why were we never informed that LFHS contracted with Panorama?

We as parents and our community deserves answers. Please let us know how this has happened. Our under age son, and rights to privacy have been violated. Our family's privacy has been violated. Please confirm that our son [REDACTED] will never be given any more surveys at all at LFHS.

Dear Ms. Dornik and Dr. Hermes:

The Protection of Pupil Rights Amendment, 20 U.S.C. § 1232h ("PPRA"), allows parents, among other things, to prevent schools from asking highly personal questions about students' sex lives, drug usage, and matters of this nature without parental consent. The PPRA provides parents with the right to opt their children out of certain activities at any school that receives federal funding.

More specifically, the PPRA requires any school to ask and obtain from parents prior written consent allowing their children to (a) participate in any study that the school is requiring; (b) participate in any school activity (including a group activity) not directly related to academic instruction and that is designed, rather, to elicit information about attitudes, habits, traits, opinions, beliefs or feelings; or (c) participate in any school activity involving the planned, systematic use of methods or techniques that are not directly related to academic instruction and that are designed, instead, to affect behavioral, emotional, or attitudinal characteristics of an individual or group (including political beliefs or affiliations, sexual attitudes or behavior, etc.). If the parents do not consent, then the school is prohibited from requiring a child to participate.

In this context, under the Protection of Pupil Rights Amendment, 20 U.S.C § 1232h, I request:

A. Copies of all surveys and related documents given to my child at Lake Forest

High School, during the current academic school year, asking for information concerning or related to:

- 1. political affiliations or beliefs of the student or the student's parents;**
- 2. mental or psychological problems of the student or the student's family;**
- 3. sex behavior or attitudes;**
- 4. illegal, anti-social, self-incriminating, or demeaning behavior;**
- 5. critical appraisals of other individuals with whom respondents have close family relationships (this should include all material related to "white privilege" or "anti-racism");**
- 6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;**
- 7. religious practices, affiliations, or beliefs of the student or student's parents; or**
- 8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).**

B. Copies of the opt-out notifications provided to parents in connection with the above.

Thank you for your assistance with this request. I look forward to your prompt reply.

Sincerely,

Dan O'Neil

Hi Tayna.
for the CYS

1) Could you confirm if the CYS survey was actually "given" to the student of the requestor or if the student opted out prior to even being given the survey(or is that something even possible to confirm)?

Answer: We gave the CYS survey In early March.through the Science Department. The teacher took 15/20 minutes out of their class and gave it to the student to take. There was no opt out. If a student didn't want to take it they didn't have to. We didn't track.

2) As the request asks for the opt-out notifications to parents, were there any notifications given to parents in advance of students being given the CYS survey (either any individual communication or something located in a student handbook or syllabus)?

Answer: There was not.

3) Want to confirm for the CYS survey, did we ask for **student identifying information** like first name and last name? Address? Social Security Number?

Answer: We did not ask for any identifying information. Some demographic information was asked. Gender, age, ...etc.. Completely Anonymous.

Hope this helps.
John

Hi Tayna.
for the CYS

1) Could you confirm if the CYS survey was actually "given" to the student of the requestor or if the student opted out prior to even being given the survey(or is that something even possible to confirm)?

Answer: We gave the CYS survey In early March.through the Science Department. The teacher took 15/20 minutes out of their class and gave it to the student to take. There was no opt out. If a student didn't want to take it they didn't have to. We didn't track.

2) As the request asks for the opt-out notifications to parents, were there any notifications given to parents in advance of students being given the CYS survey (either any individual communication or something located in a student handbook or syllabus)?

Answer: There was not.

3) Want to confirm for the CYS survey, did we ask for **student identifying information** like first name and last name? Address? Social Security Number?

Answer: We did not ask for any identifying information. Some demographic information was asked. Gender,

age, ...etc.. Completely Anonymous.

Hope this helps.

Hi Tanya.

Patrick asked me to help answer your questions.

1) Could you confirm if the Panorama survey was actually “given” to the student of the requestor or if the student opted out prior to even being given the survey(or is that something even possible to confirm)?

Answer: We gave the panorama survey prior to the first semester final exam through the Wellness Department. The teacher took 10/15 minutes out of their class and gave it to the student to take. There was no opt out discussed. If a student didn't want to take it they didn't have to. We didn't track.

2) As the request asks for the opt-out notifications to parents, were there any notifications given to parents in advance of students being given the Panorama survey (either any individual communication or something located in a student handbook or syllabus)?

Answer: There was not.

3) Want to confirm for the Panorama survey, did we ask for **student identifying information** like first name and last name? Address? Social Security Number?

Expert Q&A Trauma-Informed SEL Webinar Email

Hi Patrick,

Don't miss out! You're invited to join us this **Thursday, April 21st at 3pm ET / 12pm PT** for a 60 minute webinar, [Trauma-Informed SEL: Care & Pedagogy for Student Well-Being](#), where you'll learn how experts in education lead trauma-informed programs to unpack what it means to have trauma-informed schools as well as proactively support the well-being of students.

In this webinar, we will:

- Examine how trauma can manifest in elementary and secondary students; differentiate trauma-based responses to other challenging behavioral responses
- Share best practices and pedagogy related to trauma-informed SEL, including those with implications for classroom and school-wide implementation
- Explore approaches to trauma-informed SEL that are culturally responsive and attentive to the unique needs of a diverse student population

Working with small-groups of students on social-emotional learning skills is a great way to build community and belonging in your classroom or school.

This toolkit includes **6 facilitation guides for small-group SEL activities**.

Complete with “how-to” instructions and differentiation tips, these low-lift strategies are designed to help promote positive relationships while developing students’ SEL competencies.

Bring small-group SEL to your whole district:

- **District Leaders:** Share with your school teams and consider ways to improve districtwide SEL implementation.
- **School Leaders:** Bring these ideas to PLCs, staff meetings, Student Support team meetings, or summer school programming sessions to ensure SEL is embedded into the fabric of your school.
- **Teachers and Student Support Staff:** Try these activities with your students during morning meetings, advisory, or homeroom to strengthen relationships and teach key social-emotional skills.

Chatted w/legal and another question surfaced:

3) Want to confirm for the CYS survey: did we ask for **student identifying information** like first name and last name? Address? Social Security Number?

****Patrick, per our chat, questions #1 and #2 below AND now #3 above pertain to the CVS survey and guide you sent. Will send another email under separate cover addressing follow-up questions for the Panorama survey, etc *****

Thanks,

Could you let us know today or by tomorrow morning.

1) Did you confirm that the attached CYS survey was actually provided to the requestor's child? I see that his request is specific to those surveys that were given to his child. Based on the description below, it looks like this

was administered to all students. If that is the case, did you confirm if it was actually “given” to the student or if the student opted out prior to even being given the survey(or is that something even possible to confirm)? **Assume this is still yes, that the survey was given to the requestor's child. ?? Any other thoughts to share?**

2) The request asks for the opt-out notifications to parents. Was the **CYS** guide you provided something that was given to parents? **XXX?** Were there any other notifications given to parents in advance of students being given this survey (either any individual communication or something located in a student handbook or syllabus)?

Thoughts?

Hi Patrick - clarifying questions regarding the Panorama survey that need your attention please.

RE: Panorama

- 1) Could you confirm if the Panorama survey was actually "given" to the student of the requestor or if the student opted out prior to even being given the survey(or is that something even possible to confirm)?
- 2) As the request asks for the opt-out notifications to parents, were there any notifications given to parents in advance of students being given the Panorama survey (either any individual communication or something located in a student handbook or syllabus)?
- 3) Want to confirm for the Panorama survey, did we ask for ***student identifying information*** like first name and last name? Address? Social Security Number?

Patrick, thanks for your help! We're nearly there to wrap this one up.

Hello ,

Thanks for giving us a click, we value your time and thoughts a great deal. We are a market research company executing this study to improve school safety in your state.

We recognize the safety of students and school staff is of utmost importance. It is for this reason that we are reaching out to select school/district leaders to gather feedback around challenges and opportunities to existing **school safety solutions**.

With your input, we hope to improve products and services that will enhance the academic development and safety of students and staff.

This study will take **7-10 minutes** to complete and you will be entered to win one of ten **\$100 Amazon.com gift cards**.

We look forward to your participation, thank you for contributing your voice and opinions.

Best,
Michel J. Lee

Good afternoon,

Attached please find the Community Youth Survey our students take every other year (taken this year).

Of note:

1) All students have the opportunity to opt-out of taking the CYS

2) Within the survey itself, no questions are mandatory, meaning any student can skip any question at any time if they so desire. This is communicated to them by the moderator, in line within the moderator guidelines (also attached).

This is all we feel applies to the request.

Kind reminder that we'll need any responsive records (in blank form, no documented responses per legal) that exist by early Monday. Don't have much cushion after that as legal needs time to review and response must be delivered April 20th.

Have a great weekend!

A. Copies of all surveys and related documents given to my child at Lake Forest High School, during the

current academic school year, asking for information concerning or related to:

1. political affiliations or beliefs of the student or the student's parents;
2. mental or psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating, or demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships (this should include all material related to "white privilege" or "anti-racism");
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. religious practices, affiliations, or beliefs of the student or student's parents; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

B. Copies of the opt-out notifications provided to parents in connection with the above

Hello again, Patrick - we have another FOIA request that needs your attention.

NOTES:

- 1) See below please for the specific items, A & B
- 2) We'd be looking for BLANK copies (surveys, docs and notifications)
- 3) Could you send us what you have please by Wed, 4/13. Does that work?

- 4) We would run the materials you send to legal for any other guidance
- 5) Note this request is valid under Federal law; the PPRA amendment

Best,
Tanya

I would suggest that, if we are unsure about anything, we submit to Tanya, who will run it through our attorneys. I am submitting the CYS to her so the attorneys can determine if our asking students about 30-day usage rates constitutes "self incriminating information".

Interestingly, item 5 is NOT verbatim from the PPRA [website](#), which leads me to think there might be something in a class that has solicited this type of information--I am hopeful there has not been.

I am not sure why or if we would ever give a survey to a student that would critically appraise individuals in close family relationships, ***especially with regards to antiracism or white privilege?***

Can we connect tomorrow at JLT? This might be a great problem of practice for us all.

Hello,

We are glad that you will be joining us tomorrow (Thursday, April 14th) from 11 a.m. - 1 p.m. at Gorton Community Center for our 2022 LEADers Lunch!

Please plan to arrive to Gorton (1st floor Community Room) by 11 a.m. We will have boxed lunches, drinks, and some very productive conversations among some of our most impactful Lake Forest and Lake Bluff community leaders. We will also be releasing the results of the 2022 Community Youth Survey, and synthesizing findings from the Weathering the Storm conversation series.

We are glad you are planning to join us, and we look forward to seeing you tomorrow.

Thank you,

Hey guys,

We have been FOIA'd regarding surveys we are giving to students, with specific topics being sought. One of the topics was "illegal, anti-social, self-incriminating behavior...". John had a good thought that our CYS asks about past 30-day usage behavior. Not sure if this is what is intended to be shared, but thought I'd ask for a blank copy of the survey and share it with our attorneys. Could you provide me with one?

Expert Q&A Trauma-Informed SEL Webinar Email

Hi Patrick,

You're invited to join us on **Thursday, April 21st at 3pm ET / 12pm PT** for a 60 minute webinar, [Trauma-Informed SEL: Care & Pedagogy for Student Well-Being](#), where you'll learn how experts in education lead trauma-informed programs to unpack what it means to have trauma-informed schools as well as proactively support the well-being of students.

In this webinar, we will:

- Examine how trauma can manifest in elementary and secondary students; differentiate trauma-based responses to other challenging behavioral responses
- Share best practices and pedagogy related to trauma-informed SEL, including those with implications for classroom and school-wide implementation
- Explore approaches to trauma-informed SEL that are culturally responsive and attentive to the unique needs of a diverse student population

A Retirement with Dignity

[View online version](#)

APRIL 2022 E-NEWSLETTER

Treasurer's Note

A Retirement with Dignity

We hit another milestone.

The Secure Choice retirement savings plan eclipsed the 100,000-saver mark.

Secure Choice is the innovative retirement savings plan that travels with the worker, helping them to save their own money for their own retirement. Because the plan is portable and automatic, it is easier to save, will allow a worker to retire with dignity, and will save taxpayer money by reducing the need for publicly funded safety-net programs.

This auto-enroll IRA is designed to combat the retirement crisis facing our country. According to the Economic Policy Institute, nearly half of all working-age families have nothing saved for retirement. Additionally, according to the Georgetown Center for Retirement Initiatives, 23 percent of Illinois retirees rely on Social Security for at least 90 percent of their retirement income.

This is unsustainable. It is why Illinois lawmakers created Secure Choice and tasked the Illinois State Treasurer's Office with managing it. Today, more than 100,000 workers and 6,400 employers participate in Secure Choice, with \$85 million already saved. None of this was possible without Secure Choice.

The General Assembly required employers to either offer a retirement savings plan or participate in Secure Choice, which is overseen by a seven-person board that includes representatives from the employer and employee communities. Savings are managed by a private-sector financial services firm and kept in a trust outside of state government and its finances.

Key to passing the legislation was the assurance that employers would not be financially liable for plan administration and would not be legally liable for investment changes.

Enrollment began in 2018 with companies at least two years old and with 500 or more employees. Smaller companies enrolled in phases thereafter to ensure a smooth transition. The success was so strong that most business groups initially neutral or opposed to Secure Choice did not oppose expanding the program in 2021. That legislation requires employers with at least five employees to provide a retirement vehicle, or access to Secure Choice, by November, 2023.

The access is critical. Workers are 15 times more likely to save for retirement if they can do so at work.

"Pay yourself first." That was the simple advice of publisher George Samuel Clason 100 years ago. It still rings true today. Secure Choice helps workers save their own money for their own retirement. Helping people help themselves is one way the Illinois State Treasurer's Office is Invested in You.

Sincerely,

Michael W. Frerichs

Illinois State Treasurer

Cyber security

Cybersecurity

Competing with the Best

It seems that not a newscast goes by without a mention of a cybersecurity threat.

The Illinois State Treasurer's Office takes these threats seriously and is considered among the best in the country in cybersecurity. That is why the office has been invited again to compete at the International Cyber League Competition.

For those still uncomfortable with a cell phone or computer, think [Top Gun](#) of computer security professionals.

The competition tests Security Operations Center and Incident Response experts as they combat hyper-realistic attacks on the Cyberbit Platform. The competition begins with a lab round, after which 40 qualifying teams will proceed to two live-fire exercises to crown the World's Best Cyber Defense Team.

Last year, the state treasurer's office placed 19 out of 200 competitors, besting well-known private sector firms and Fortune 500 companies. As a result, the treasurer's office received a personal request to participate this year.

Outside recognition and validation always is nice. This invitation honors our team and efforts. It also is another example of how the state treasurer's office is Invested in You.

It's That Time

Free Tax Assistance

Not everyone is comfortable completing their tax returns.

According to the Federal Policy Brief, more than half of filers earning less than \$30,000 annually seek professional help.

That costs money. The National Society of Accountants said the typical fee to prepare a basic Form 1040 is \$220. The price will be higher or lower, depending where you live.

Fortunately, there are free options for those who qualify.

The Internal Revenue Service (IRS) supports [programs](#) that offer free help. One is the Volunteer Income Tax Assistance program, or VITA, which generally helps the elderly, people with disabilities, and families with an income of \$58,000 or less. The program works with local volunteers trained by the IRS. This IRS [locator tool](#) can find a site near you.

For families that earn \$73,000 or less, the IRS offers the [Free File](#) program.

Finally, local officials generally have a list of volunteers who help with tax returns. Many of these are provided through libraries or community colleges.

For people in Illinois, and most others in the country, the state and federal tax deadline is Monday, April 18. Federal and state officials recommend electronic filing of tax forms because a refund is received more quickly than through a paper return.

Adapted from this [story](#).

Did You Know?

Did you know that some life insurance companies chose not to pay death benefits when their loyal customer died?

That's just wrong, and Illinois State Treasurer Michael Frerichs stepped in to fix it.

Despite strong opposition, including a lawsuit by one national insurance company, Frerichs convinced lawmakers to change state laws to require insurers to search their records and contact beneficiaries so they can claim their benefits. Unpaid life insurance benefits are part of the duties of the state treasurer's office because they are considered unclaimed property if not claimed by the beneficiaries.

As a result, more than \$800 million in unpaid life insurance benefits have been paid either directly from the insurance company or turned over to the unclaimed property program.

Do you have unclaimed property? Search [here](#) to find out.

Subject: Financial Advice for Employees of Lake Forest Schools

Date: Thursday, April 7, 2022 at 9:45:54 AM Central Daylight Time

From: Madison Paige

To: psassen@lfschools.net

Employee Sassen,

Great news! Because you are an employee of Lake Forest Schools, you are eligible to schedule a phone call or teleconference meeting with a representative to your specific state, federal and individual retirement benefit questions at no charge.

Our licensed representatives will come to you and provide you with the following information:

- What your potential income can be when you retire.
- How much longer you may have to work.
- Options to help you save more money for retirement, without affecting your take home pay.
- Which providers' 403(b) options have guaranteed income when you retire.

Please be sure to indicate which type of appointment you prefer (phone call or teleconference) in the notes section while scheduling. Please also include your direct cell phone number.

Daytime appointments are filling up fast. To secure your spot, please click the link below, or simply reply “yes” to this email.

Jessica Minahan Webinar Email (1)

Hi Patrick,

Jessica Minahan's [Virtual Summit](#) keynote was voted "Most Impactful Session" by attendees and we heard that you'd like another opportunity to learn! That's why we're inviting you to join us on **Thursday, April 14th at 3pm - 5:30pm ET / 12pm - 2:30pm PT** for a special 2.5 hour webinar, [Between a Rock and a Calm Place: Practical Strategies to Reduce Anxiety and Challenging Behavior in Students](#).

In this event, you'll learn easy-to-implement preventive strategies for reducing anxiety, increasing self-regulation, accurate thinking, and self-monitoring in students.

Join an extended workshop led by Jessica Minahan, Co-Author of *The Behavior Code: A Practical Guide to Understanding and Teaching the Most Challenging Students*, focusing on proven practices to help teachers, counselors, leaders, and parents identify the messages underlying challenging student behaviors and respond in supportive ways. This event will be a review of her keynote Summit session, but with time to go even deeper into the content.

Interested in joining? [Save your spot](#)

This event is **live only** and will not be recorded for future viewing, so be sure to

mark your calendar!

Featuring:

Jessica Minahan, MEd, BCBA, is a licensed and board-certified behavior analyst, special educator, as well as a consultant to schools internationally. Jessica has over 17 years of experience supporting students who exhibit challenging behavior in public school systems. She is the co-author of [*The Behavior Code: A Practical Guide to Understanding and Teaching the Most Challenging Students*](#) and the author of [*The Behavior Code Companion: Strategies, Tools, and Interventions for Supporting Students with Anxiety-Related or Oppositional Behaviors*](#).
