Hello all,

We had a conversation with [Redacted] this afternoon, sharing our plan to honor the child's wishes and refer to them as [Redacted] as they return to our school. We did this after careful consideration based on legal and mental health care issues surrounding this issue and this case.

[Redacted] strongly disagreed with this approach and decision, and indicated that the child will not be returning to our school. This isn't in effect until it officially occurs, by the parent enrolling their child in another school. So, please do not share or confirm this information with other children who may ask.

See me please with any questions going forward,
[Redacted]
