Thanks for following up, [REDACTED] Welcome back to another school year!

Yes, we are confirmed for October 12th at the SF LGBT center for our first interdisciplinary community clinic. The clinic will run for 4 hours, from 1pm-4pm. We are requesting that professionals arrive by 12:30 to get settled in the space. Families will sign up for 30-50min sessions with providers and will rotate through their sessions. We will have medical consultation, mental health consultation, legal consultation, and education/community consultation. It would be wonderful if someone from the district could represent local, school-based gender resources. I am going on vacation starting tomorrow afternoon through September 3rd. I am including J. Cohen on this email, who can support communication until I return. Please let J know if someone from the district can be available!

Take care,

Hi [REDACTED] --

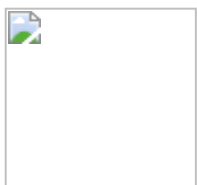

I didn't forget about this and wanted to follow up. Is there a time frame for Oct 12th? I have a new LGBTQ programs coordinator hired and want to make sure one or both of us can cover this.

Hope all is well!

Hi [REDACTED] --

Oct 12th wouldn't work for me but I might be able to identify someone else. School is out now and all of our school staff are out for the summer and I'm currently hiring for an LGBTQ programs coordinator. I won't have a definitive answer until we get closer to the start of the school year (Aug 19th).

I may be able to join for other Saturday meetings depending on my schedule.

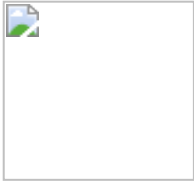

Erik

Hi [REDACTED],

We are looking at October 12th for the initial clinic as of now, but we don't have a solid date yet. We are looking at Saturdays - probably for about 4 hours. Might that be an option for you or some of your staff?

Take care,

[REDACTED]

Hi [REDACTED] -

I apologize again for the late response. I would love to participate. Do you have a sense of what dates you're looking at?

Thank you, [REDACTED]. I absolutely understand the end of year craziness. Feel free to respond after the end of year - and let me know if you or someone on your team would be interested in joining for the clinics starting in October. It would be great to have an SFUSD representative there to support families.

Take care,

Hi [REDACTED] --

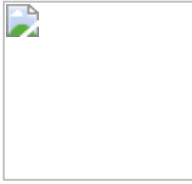

I apologize for the late response. I am coming up on some end of school year deadlines. Unfortunately, all of our schools are closed for the summer and would require a permit to access. Let me reach out to folks to see if something is possible.

Hi [REDACTED],

I am following up about possible collaboration for the interdisciplinary clinic. Here is the info from my last email - let me know if you might be interested!

I wanted to connect with you about a service we are hoping to offer under our grant during the next fiscal year: we are planning to create 4, half-day interdisciplinary clinics for youth and families. These clinics will be held in one location, and will provide the following consultation services: mental health, medical, legal, spiritual, educational and social. We are basing this off of Gender Spectrum's model, where they have a wide variety of professionals available for sessions with families during their summer conference. I am wondering if this is something your staff might be interested in participating in - one thought would be to have a rep from SFUSD to support families with navigating gender services at school. I'm also curious if an SFUSD site may be available to house the clinic on a Saturday? Ideally the location would have multiple breakout rooms that could be used for concurrent sessions. We unfortunately don't have a regular space through UCSF, so we are reaching out to community partners. Any thoughts? I'm also happy to connect via phone to talk more about our vision and brainstorm ways to collaborate.

Take care,
