Hi all

I am a bit busy that week so my time is tight but im happy to do it if it works:

im doing a training 6/5 already from . 10-1 so that might be too tight??

6/6 im free in the morning -- 9 or 10 or 11. have to finish by 1 pm (have something in east bay at 2:30

6/7 : not free

Yup, the foundations would be great. The Health Education team would also be there to help them think through implications for their practice and use in the health education curriculum.

Hi [REDACTED],

To confirm - they are hoping for a similar foundations of gender and overview of gender affirmative clinical model that we have provided before? I would be able to come on the 5th at some point. J, what are your thoughts?

Take care,

Hi [REDACTED] and [REDACTED],

Hope this email finds you well. I am reaching out because our health education team is planning training for health education teachers in June (see email below).

The program leaders who participated in your workshops for social workers/nurses loved your training and wondered if you were available to present anytime between June 5-7?

You can see how the days are being themed so they are open to fit you in at any time during that summit.

I am also CC'ing [REDACTED] [REDACTED], our health education coordinator for high school in case you have any additional questions.
