

3000 Policies

3010 - Consider IDYCA program. Enrollment is different. (Statement about IDYCA exemption from rule)

I'm not sure what changes should be made. **What kind of statement should be added, and to which part of the policy?**

3050 - Reduction in values of assignments of not more than 10% (Difficult to make uniform unless we make a broad rule) (Statement on uniform reduction or none at all)

I changed the wording to reflect this. **Please review the attached policy and let me know if the highlighted changes will work as-is, or if changes should be made to them.**

Truancy - Do we assign Friday school? (Remove Friday/Saturday School portion)

I've removed all references to Friday/Saturday School. If any further or different changes should be made (besides removing the highlighting and deleted items), please let me know.

3060: Edits were made to this policy in the Spring 2018 Update. **Would the Board like to adopt the update as shown in the attached, or with edits?**

3080 - The new update (Option 1, Option 1)

I've added the updates to this policy as shown in highlighting and strikethrough, with Options 1 and 1 only. Please let me know if there are any further changes that should be made.

3250 - Paragraph 4 - (add or designee after Superintendent approval)

Done

3260 - We do not support the Bring Your Own Technology Program (BYOT))(Do not adopt)

I've removed this policy and form.

3265A2 - (Devices allowed, With Controls)

I've removed the other version.

3270 - (Option 1 - no personal use, Option 2 - supervised personal use. Both still monitored by district) (Approve both options on page 6)

The optional language on pg.6 has been kept. **There is also optional language to accept or reject on p.3, and on p.7** (which position should make decisions about policy violations). **Also, which of the options on p.1-2 would the Board like to use?**

3275A1 - Option 1 Taking devices home -

3275A2 - Option 2 Not allowed to take home.

Which of these options would the Board like to adopt? Both have options to select between and optional language to accept or reject.

3285: Would the Board like to keep or delete the optional language?

3296 - Bullying Awareness Week - Something we need?

This policy is optional. **Would the Board like to delete it?** If not, there are a couple of blanks to fill in.

3345 - Restraint Policy? Ask if we need?

ISBA considers this policy recommended, but not required. No law or administrative rule seems to require a policy on this topic, but there may be liability or legal precedent reasons why it's a good idea to keep it. I've previously worked with Districts on loosening the training requirements. **Is the Board thinking of deleting this policy or making changes to it?** If I know what they want to do with it, I can look into whether it's something we would recommend against.

3400 - Our adopted current policy. From November 2017

Does the Board have another policy on this topic they'd rather use instead, or is this simply a note that the Board is already using this policy? If the Board would like to use a different version of this policy, I can review that along with the rest of these edits.

3410 - School sponsored social events outside of school approved by board (Statement of out of normal/traditional locations)

I'm not sure I understand what should be done with this policy. **Could you let me know what language should be added and/or removed?**

3505: Does the Board want to accept or reject the optional language?

3510 - Amber is Working on the wording of this. We need to make sure we are covered and do the training.

I'd be happy to review the edits when they're ready.

3525: Edits were made to this policy in the Spring 2018 Update. **Would the Board like to adopt the edits as shown in the attached, or with edits?**
