Q32:

A number of public school districts across the country currently maintain official policies that assist students with "transitioning" to a different gender - which includes using a different name and pronoun chosen by the child, and allowing him or her to use locker rooms and bathrooms that correspond to this new identity. It also may include recommending a student visit a local clinic, where they can receive prescriptions for puberty blockers or hormone injections. As part of this process, some schools do not share this information with parents because they assert that families are not "safe" or that parents would not be "supportive." A training presentation for teachers in one Wisconsin school district stated "parents are not entitled to know their kids' identities. That knowledge must be earned." Do you agree or disagree with this statement?

Table 49-4

Q37:

Do you agree or disagree that schools should help a child change their gender identity, which may include name, pronouns, clothing, chest-binding, or other interventions, without their parents' consent?
