Thank you ill check that form out. So this event is for elementary kids/families. I have been getting asked more and more to come in our elementary schools this year. So the resource fair will be things that we have to offer in mpls and what option they have as far as "time lines" for their Trans/GNC/NB kiddo. I'm hoping to get an individual to guess speak who is doing this work on the medical level and what they can give some insight into that. The main reason for the event is to get information to families who are navigating our schools with information about what that school will look like for they child, what schools have all gender bathrooms (and able to use)

Good morning [REDACTED]

I tried to click on the Google form and got an error message (wanted you to know). Can you tell me more about this event - who is the target audience and what the goal is?

Have a good day!
