Sally,

The information is changing by the day. Today I learned that my trip to China will be bumped by one day, and they will try to incorporate Jinan staff on my train trip or a meet-up in Hefei. I'm sure they would probably enjoy a visit by Pam, however she didn't seem too excited about using personal days for it (the revised FCPS policies are very tight for out of town travel right now).

Thank you for this information Evan. I hadn't even heard about your trip for Ameson until today, so thank you for this.

I hadn't heard this request for Pam to join for this trip. Unfortunately Brandon let us know he is unavailable for China travel. I don't think Pam was free during mid-May due to a conflict she needs to be at TJ for. However, I will reach out to her.

I am cc-ing Tia as she and Steve Smith are planning to have a phone call while I am in San Fran. I wanted to keep her in the loop.

Sally,

Thanks for your help with the Ameson visit in May. Sean is interested in Pam/Brandon (whomever you selected) in flying out with me on May 19, and then staying the week in Jinan while I head to Nanjing for the signing ceremony. I don't know if you were given a date for their travel, so I wanted to share the latest info with you.

I will try to connect with Geoff, and once I make contact, introduce him to you so you can arrange his meeting with Ameson during their visit in mid-May. Sound OK?

Hi Evan,

No problem on the below. If you would like, we can speak in person about the below. I am in San Fran right now with students, and then on vacation next week. I will be back at TJ the last week of April. I could also speak on the phone next week if you like.

I have never met Geoff Jones. I am happy to make an introduction, however, my only way of getting in touch with him is through Paul currently. Do you know how to get in touch with Geoff?

I am happy to take the lead on the May visits. I am free both dates that Sean mentions they could come -

I can coordinate a tour through Cathie Love and also set up some other people to speak with them depending on Sean's wishes.

Thanks,
Sally

Sally,

FYI below. Please do not forward this message. I want to loop you in to some of Ameson's difficulty with Paul's consistency (or lack thereof). When Paul came around with Geoff Jones, did you have a chance to meet him? Ameson is interested in his services.

Also, they have some big shots visiting in mid-May right after APs. Would you mind supporting this visit, or prefer I ask Cathie to make the arrangements?

Thanks,
Evan

OK, Evan,

Thank you for your finding my previous mail from your spam filter.

Yes, it could be nice that I can meet **former principal of TJ, Geoff Jones**, when I visit DC next month, possibly have dinner together at a small scale?

Will that be possible that you can receive a delegation from China to visit your school for less than half day? the delegation is headed by the Party Secretary of Zhejiang Provincial Education Department, as you may aware that Party Secretary is in fact powerful than the general director of the Zhejiang Provincial Education Department. Hangzhou is the Capital of Zhejiang Province that is near Shanghai by one-hour express train. They will visit you around May 15th or 16th.

I will come with them as well.

All the best!

Sean

Hi Sean,

Sorry to not get back to you sooner. I just found your email in a spam filter, and I'm not sure why that happened.

There are some other staff who might be able to help Paul. I know recently he met with the former principal of TJ, Geoff Jones, who is now retired. Have you had a chance to meet him?

I also know some retired TJ staff who could help Paul, although more on a consulting basis since they like to travel a lot.

I think Sally Zabel is probably the best to coordinate these efforts, and of course I am happy to help. Do you want to talk more about this when I visit in May, or shall we talk by phone?

Hallo Evan,

Paul is a good person, energized and enthusiastic. He is our salary-paid staff without sitting in DC office

However, I realized that he has too much other commitments, particularly in China, that not related to us. For example, he is in China now, that I know it till someone told me that he met Paul in Beijing at a seminar where Paul presented about TJ.

I am little bit worried about whether he has enough time or focus on supporting us to develop China Thomas School, so, if possible, can you recommend one more people to work with us, either based in Washington DC or in China, in addition to Paul.

And do you have anyone else, retired or want to take sabbatical leave, to recommend to work in China for one or two years at our Thomas school? either as senior administrator (say deputy principal) or as senior teacher.

Thank you very much and looking forward to hearing from you soon!

All the best!

Sean
