Thanks for reaching out, [REDACTED]. And thanks for the connection, [REDACTED] – moving you to BCC to spare your inbox moving forward.

I've brought our Policy & Advocacy Manager, [REDACTED] (they/them), into this thread as our point for all things policy and legislation-related. [REDACTED] can you speak to whether or not this law is already being enforced?

On a more GSA-related note, [REDACTED] I currently maintain an email listserv for GSA Advisors through which folks can get info and connect to other leaders within the safer schools movement – might you be interested in being added to this space?

Excited to connect further!

Hello [REDACTED]

Thank you for reaching out. I have forwarded your email to our Illinois GSA rep Nat who will be in touch with you very soon. I have copied them to this email as well.

Best Regards,

Hello! My name is [REDACTED] (she/her), and I am the GSA faculty sponsor at a high school in southern Illinois. We did a little research today, and discovered that legislation has recently been passed by the Illinois House, Senate, and signed by the Governor which states all schools 4th-12th grade must provide menstrual hygiene products in ALL bathrooms free of charge. Currently, our school does not provide these products in the boys' bathrooms. I was wondering about the best practices as far as communicating this with our administration/school board. I don't want to get anyone in trouble, but I would like to see this change take place so that we are adhering to state policies. I haven't the slightest idea how I should go about this or where I should start.

Thank you,

[REDACTED] (she/her)
