← BLACK FOR PALESTINE

DONATE:

- [Aid for Gaza](#)

CRITICAL CONTEXT TO SHARE:

- Palestinians in Gaza face more and more deadly conditions of Israeli bombs backed by Western erasure & political greenlighting, the worst ever. By "genocide in Gaza" we mean: there is no fuel, no water, no food, no Internet, and nowhere to escape.
- **Hospitals are running out of electricity and fuel. The Red Cross said "hospitals are going to be turned to graveyards"** and all 13 hospitals in Gaza are only partially operations. Many healthcare workers have been killed by Israel.
- [Human rights workers are fleeing for their lives](#) and unable to document the scale of the carnage.
- Many Israeli ministers have issued open calls for genocide. Israel and the US are planning a massive forced displacement larger than the 1948 Nakba (Catastrophe) when Zionist militias ethnically cleansed Palestine. Israel is also planning a ground invasion and continues a total blockade and persistent bombing of hospitals, schools, residential buildings, and the crossing to Egypt.
- [Democracy Now has interviews with Palestinians in Gaza experiencing this ongoing atrocity.](#)
