Subject: Important Information

Good Afternoon Sun Valley Family,

As many of you might be aware there has been communications throughout social media regarding a possible protest Wednesday at 10:00am. Please note administration has not been approached by any students or student groups in regards to planning the implementation of any sort of protest.

Please do not communicate anything to students regarding the possibility of the protest or its consequences other than; Wednesday at 10am we will be transitioning to 4th period as its the end 3rd period. The expectation is all students are in their 4th period classes as school policies state students may not leave school without permission. Attendance policies are also enforced as it is a regular day of school. This covers class cuts & unexcused absences. The handbook clearly states any class work missed for a cut or unexcused absence cannot be made up.

Also, if any students have additional questions or concerns please let them know to speak to admin about them. If you as a staff member have any additional questions, concerns or suggestions please stop by! Dr. Steinhoff or myself will be sending further communication to parents tomorrow.

Thank you,
