Dr. Marrero

I hope you are doing well. I'm writing with a recommendation seeking your approval to override a boundary to better accommodate our new arrival students.

We've been informed by the city of a shelter activation at 6th and Federal. While this shelter is technically in the Cheltenham boundary (which was expanded to include the Fairview Elementary boundary this year), the team believes it is best to assign this hotel address to Eagleton for the following reasons:

- Eagleton is better equipped to handle an influx of migrant students, in terms of both building capacity and MLE program quality
- Eagleton is closer, at 0.5 miles from the hotel, and a relatively easy walk for families once they cross Federal @8th
- Cheltenham is 1.8 miles away and would increase transportation cost
- Cheltenham recently consolidated with Fairview and is still stabilizing from that change.

Once we have a better understanding of how many students may be sheltered here, we will begin developing plans for overflow that might include Cowell, Cheltenham, Colfax, Newlon and Barnum based on the grades and program types needed.

Please let me know if you are ok with this recommendation to assign the hotel address to Eagleton instead of Cheltenham.

Russ Ramsey
