Subject: Migrant context expert?

Hello Atim,

I hope you are well. I am reaching out to ask if you all have anyone in your office who is a deep expert on Latin America and Venezuela that could be a resource for understanding the current context for new arrivals. Perhaps a person who is expert witness in asylum cases?

We are curious because we are still thinking that a presentation to council in an upcoming committee could be helpful context, and I was also in a youth violence prevention meeting today where folks from **DPS** were referencing some recent conflicts between migrants from different nationalities where tensions are occurring, and that **DPS** and other providers are in need of some guidance/education on this topic.

Thank you,
