

ELEMENTARY EDUCATION

A major component of professional education coursework involves clinical experiences in area schools. These field experiences are developmentally sequenced opportunities to apply learning to the field of practice, culminating in a year-long student teaching experience. Such structured and sequenced experiences expose students to the full range of responsibilities of today's educators while furthering learning and skill development and nurturing dispositions.

PROGRAMS

DEGREES AND CERTIFICATES

- Bachelor of Science in Elementary Education
- Elementary Education STEM Certificate
- Master of Science in Elementary Education
- Master of Science in Elementary Teaching

ABOUT THE PROGRAM

The Minnesota State University, Mankato Elementary & Literacy Education department offers a premier 21st-century teacher education experience for undergraduate and graduate students. During the first two years, students complete program requirements designed to build knowledge of content across multiple disciplines. During the final two years, students are admitted into a cohort.

REAL-WORLD CONNECTIONS
