Hello all,

I'm pasting below the information shared by August and Ingalil from OUT Maine. This information includes a survey for their growth as presenters, resources for classroom learning and support as it connects to your curriculum and work with students, and lastly a link to a new, self-paced training program for those who missed the training.

From OUT Maine:

We appreciate that you support and advocate for LGBTQ+ youth! We have included a link to our Survey Page and encourage you to complete it so that they can benefit from the feedback.
