Dear Colleagues,

Western media outlets, the U.S. government, and our own university administration in New Brunswick are addressing the war in Gaza exclusively through the perspective and experiences of Israelis, the Israeli government, and their supporters at the same time that Palestinian civilians are being bombed, murdered, starved of food and water, denied electricity, and trapped in Gaza by the Israeli government. While no civilian should ever be subjected to war crimes - whether by the Israeli government or Hamas - the ongoing erasure of Palestinian humanity in the halls of power brings into sharp relief the dire need for education.

The [Center for Security, Race and Rights](#), [Honors Learning and Living Community](#), and various Rutgers-Newark student groups are hosting a **Teach In on Gaza** on Wednesday October 18 at 12:15 pm at Rutgers Law School Room 070. Seats are limited, therefore, attendees must register at: <https://go.rutgers.edu/6ck76cbl>

Please share this email and the attached flyer widely with the Rutgers-Newark community.
