Subject: Quaver ED PO?

Hi Pam,

We received this invoice from QuaverED. There are already a few POs in the system for them. I was wondering if I needed to create a new one for this coming year or if I could use one of the previous ones. Any help is appreciated!

Thanks,

Hi Shelly,

I hope you are well. For the 2 attached invoices, I don't find a PO for the Clover Park one and for the Quavers, I need an okay to pay.

Please let me know if there's anything I need to know about these two.

Thank you,

**OKAY TO PAY??** 

April 15, 2016

Dear Tracy,

Thank you for the opportunity to submit a proposal to bring the Quaver QK-6 Curriculum to Puyallup School District. In the last four years alone, we have invested over 200 person **years** of effort to produce the most exciting, high energy, pedagogically sound curriculum in music education.

Our team consists of curriculum consultants, music teachers, session musicians, songwriters, graphic artists, animators, computer programmers, and audio and video engineers. Together we have created a phenomenal program for elementary schools using not just traditional songs but also modern music, including rock and hip hop. Our team is focused on a single subject – general music education.

QuaverMusic.com continually receives rave reviews from the more than 4,500 schools now using QuaverMusic.com in their classrooms. Our users are our best salespeople. We urge you to contact any Quaver teacher in your state or elsewhere. The list of schools using Quaver is provided on our website at <a href="https://www.quaverMusic.com/QuaverMap">www.quaverMusic.com/QuaverMap</a>

With respect to Puyallup School District, we view your commitment to a fully web-based solution for your music curriculum as another example of your leadership. Yet we understand that the enthusiasm for having the curriculum "in the cloud" is likely uneven among the district's teachers. While QK-6 brings the future to teachers who are ready to embrace it, we offer an easy path for teachers who seek a more gradual slope.

We would be privileged to serve you and your teachers with the most innovative, effective, responsive, and fun music program ever produced. We believe your teachers and their students will not only embrace QK-6 as it is presently developed, but will also see the value grow with the features and refinements that will be continually added month after month at no increased cost.

Thank you again for considering our proposal,

Sincerely,

Tim Maus Key Account Representative

## Quaver's Beyond Marvelous K-6 Curriculum Proposal

Presented to: Tracy Pitzer Puyallup School District

> Presented by: Tim Maus QuaverMusic.com

April 15th, 2016

We are pleased to present our proposal to provide the Puyallup School District' teachers with the Quaver Beyond Marvelous General Music Curriculum for Grades K-6, the most innovative, effective, exciting, and responsive general music education curricula available today. Our proposal is divided into five sections:

- I. Program Elements: The features of QK-6
- II. Program Benefits: The benefits of QK-6
- III. Training Program: Our commitment to training
- IV. About QuaverMusic.com: Our singular focus on music education
- V. **Cost:** The cost of QK-6 and training

#### I. PROGRAM ELEMENTS

The Quaver Curriculum is a comprehensive, customizable, and fully digital program for today's music classroom. Since its introduction in 2013, it has been revolutionizing classrooms with cutting-edge technology and teacher-friendly features. Packed with interactive tools to engage and assess students, the Quaver Curriculum exceeds State and National Standards, aligns with Bloom's Taxonomy, and makes learning music seriously fun!

Our proposal to provide QK-6 covers the full range of Quaver products to serve the Puyallup School District music teachers from Kindergarten through 6th grade in the district. Included are the following:

- **Complete Curriculum:** A total of 252 executable Lesson Plans in QK-6, organized into 3-week Modules to provide the foundation for teacher class preparation.
- Resource Manager and Library: Our Library allows teachers to search through the
  wealth of classroom resources included in the Curriculum Interactive White Board
  (IWB) elements, Media Slideshows, Video Episode clips, Audio Tracks, ClassPlay songs,
  and more. From the Resource Manager they can easily manage, organize, and
  customize Curriculum Lessons to suit their needs, even pulling in favorite resources
  from outside QuaverMusic.com.
- Lesson Plan Presenter: Gives the teacher the ability to launch each Lesson Plan as a seamless classroom presentation through any digital medium.
- **Musicals:** Projects for elementary grade levels K-3 for developing presentations for parents or peers with theme, scripts, backing tracks, movements, scenery and costume suggestions.
- ClassPlay<sup>tm</sup>: An activities-based song literature program, which incorporates folk, traditional, holiday, and patriotic open source songs. ClassPlay activities, including movement, solfège, games and more are incorporated into each Lesson Plan.
- Online Quaver Classrooms: Our topic-based Online Quaver Classrooms include sheet music, audio tracks, a teacher toolbox, guizzes, and over 400 IWB elements.
- **Students' Website:** This free website allows students to have fun while learning music, to play games with musical themes, compose music and dance routines, personalize their avatar and music room, earn medals and trophies, and more much more.
- **World Music Videos:** Introduces students to fascinating percussion instruments from around the world. Each instrument includes an introductory video, 360-degree view, how to play, and leveled performance challenges for cultural connections.
- **Bach's Brain Videos:** An exciting series of memorable 2-3 minute video vignettes that connect music with real life skills through the lives of history's greatest composers, including Handel, Beethoven, Mozart, and more.

- Automated Assessments: Each 3-week Module includes a computer-aided assessment, for a total of 72 quizzes. Results are digitally collected from students, automatically graded, and entered into the Teacher GradeBook.
- "Quaver Unplugged" Kit: In a digital world, we all rely on the Internet to work at all times, yet we know there are brief periods when it doesn't. School networks, servers, data providers ... all fail from time to time. So we provide teachers with a variety of printable lesson plans, worksheets, and exercises from each module, available as PDFs on DVD and on a thumb drive. We keep music classes moving even in unpredictable situations.
- **Teacher GradeBook:** Our GradeBook makes it easy to organize and track student progress, so more valuable time is spent actively teaching students.
- **Usage Reports:** Gives supervisors and directors a bird's-eye-view of what's happening in their district, allowing them to easily monitor the performance of a specific student or a class with detailed reports.

#### II. PROGRAM BENEFITS

There are at least six major benefits of our general music education program.

## A. Comprehensive and Rigorous, Yet Flexible, Curriculum

- Twelve Thematic Threads: Quaver offers a comprehensive music curriculum of 252 interactive lessons from Kindergarten thru 6th grade, focused on twelve thematic threads. We ensure that the students are presented all aspects of music including singing and playing, music theory, musical instruments, music history, world music, science of music, musical styles, life lessons from great composers, and much more, for an orderly progression of learning through all grade levels.
- Bloom's Taxonomy: We employ Bloom's Taxonomy to ensure basic knowledge, understanding, application, analysis, and evaluation of musical concepts as well as to stimulate student creativity. In teaching, we first have students experience a musical concept, e.g., loud and soft. Then, we explain that experience in musical terms and may introduce the concepts of piano and forte. Finally the students may be asked to apply the musical concept in class or through an interactive, on-line program. Our activities involving Higher-Order Learning set us apart!
- Customizable Lessons: Teachers are free to use their own favorite resources or materials and integrate them into our lesson plans. They can customize the Quaver curriculum by using lessons in different grades, other material from the extensive Quaver library, or by inserting their own materials, including PDF's, docs, website links, YouTube clips, mp3's, and more into individual lessons.

## **B.** Latest Interactive Computer Technology

- Cloud-Based Technology: Quaver resources are available in the cloud, that is, from
  the Internet. There are no discs to load and no software to install or update. The
  resources are always up to date and accessible anywhere the Internet is available. If
  desired, we can also implement a Wide Area Network (WAN) server for the district to
  control access and ensure greater data security.
- **Multi-Platform Software**: The basic curriculum operates on any Mac or PC. In addition, Apple and Android mobile devices can be utilized to access Student Interactives and Assessments. If you do not have an Interactive White Board, our curriculum is fully functional with a simple projector connected to the computer.

- Extendable Architecture: Our technology allows for 1 to 1 learning tablets as well as implementing a district WAN (Wide Area Network) for Quaver products ensuring greater control, security, and privacy of district information.
- **Printable Materials:** Even though our educational resources are delivered electronically, teachers can print all Lesson Plans, Musical Scores, and Worksheets in hardcopy for use in the classroom.
- Offline Resources: In the event the Internet is interrupted at the school, QK-6 comes with Quaver Unplugged, a DVD and thumb drive the teacher can use to continue activities in class. The disc contains lesson plans, worksheets, and screen images for each of the 12 modules in each grade.

## C. Fully Engaged and Attentive Students

- "Seriously Fun:" Our curriculum is designed to be "seriously fun!" Topics are taught
  in an entertaining but pedagogically sound way, so students enjoy the classroom
  experience, while often not realizing they are actually learning. The entertaining, yet
  substantive content of Quaver has shown to markedly improve student attention and
  content retention.
- Interactive Learning: We have over 400 IWBs, musical games, and activities, which allow students to solve musical problems, compose songs and instrumental parts, engage in musical challenges, and learn about musical topics. This is all done using actions and techniques similar to what they use on their own computing devices. Our curriculum exists in their world of technology and is familiar to them.
- Fewer Behavioral Problems: Because the students are so engaged, our teachers have frequently cited a sharp decrease in the rate of behavioral problems in their classrooms. Teachers also report that music not only becomes one of the student's favorite classes during the school day, but also something fun to engage in after school, using the QuaverMusic.com website.

## D. Increased Teacher Productivity Via On-Going and Auto Assessments

- Assessments Every Three Lessons: Music teachers often teach the entire student body in the school and therefore have to grade all the students' assessments. As a result there are few regular, graded assessments in general music education. With Quaver, the teacher can conduct in-class assessments, which are built into the QK-6 Curriculum from the front of the classroom to test student retention on an on-going basis.
- Auto Graded Assessments: The students can also complete the assessment on a
  computer or via a mobile device, if available. Our system will automatically grade the
  assessment and place the result in the teacher's grade book. The Student App for
  smart devices is free for students to download.
- **Diagnosing Comprehension:** The teacher can view graphically the distribution of grades from assessments and see what questions were most frequently missed and by which students. The results can be used to help focus a review of material that has not been fully understood.

#### E. Contributions to Teacher Enthusiasm and Effectiveness

- Enthusiastic Teachers: Teachers are enthusiastic about the program both for the ease of use and for the effect Quaver has on their students will. At conventions, teachers often bring other teachers and school administrators to our booth exclaiming, "You have got to see this!" We motivate teachers while we motivate students. It makes for an extremely upbeat classroom and effective learning environment. We encourage you to search the complete record of customer reviews (and even 'fan mail' from students) at http://www.QuaverMusic.com/testimonials
- **Teacher's Assistant:** Having Quaver in the classroom is like having a teacher's assistant. Students gravitate toward Quaver and his sense of humor and love of music. With Quaver, the teacher has an assistant who is always up and fun.
- **Pre-Built Lesson Plans:** There is a multi-page lesson plan for each lesson, which the teachers can print out, including national standards met in each lesson. This saves considerable teacher time in preparing lesson plans.

## F. Professional, Multi-Layered, and Responsive Customer Support System

- On-Site Training: We include on-site training with QK-6, which will be conducted by members of the Quaver team. We want to be sure that Puyallup School District teachers are fully briefed on Quaver so they can adequately prepare for the school year. To that end, we are prepared to begin training as soon as we are notified that we have been selected.
- Online Video Tutorials: All our major Quaver resources have online video tutorials, in addition to a fully-developed interactive professional development training series under our Support Hub. These videos show teachers how to use all the interactive elements in the program, including all "Creatives," ClassPlay, Bach's Brain, World Music, the Teacher GradeBook, and even the Curriculum itself. We also hold Webinars twice a month, where we announce the latest developments in the program, offer tips on using Quaver resources, and share feedback from the Quaver Qmunity, an evergrowing community of Quaver teachers across the United States and in 18 foreign countries.
- Live Person Hotline Support: Quaver maintains a customer service hotline of real people on site at the Quaver headquarters where teachers and other users can email or call in to obtain immediate help. We have trained customer service reps who are eager to help you. We encourage you to call 866-917-3633 (Monday Friday, 8AM 6PM Central Time) to test the hotline.
- Social Media: Quaver maintains an Info Site, Facebook, Twitter, Pinterest, YouTube, and UStream Channels and other social media platforms in which teachers can participate. The Quaver Qmunity<sup>tm</sup> is also an active source of comments on experiences and ideas for new ways to use Quaver products in the classroom.

#### III. TRAINING

Puyallup School District's teachers will benefit greatly from interactive training sessions with the Quaver Team throughout their license term. QuaverMusic.com will provide Puyallup School District's teachers with a total of ten days of on-site training by the Quaver team over the duration of the eight-year license term. Training Days may be up to eight hours long each, and can be scheduled at any point throughout the license term. We recommend scheduling two separate training days in the first full school year of the license term. Live digital training, via Skype or a similar video conferencing service is available in addition to on-site training, contingent upon staff availability.

Additionally, online Professional Development courses, Webinars and QTorials are available 24/7 to assist teachers at their own pace. The Quaver Customer Service department is available from 7 am to 6 pm, Monday to Friday, to answer any question, address any tech need or help in any way. There is no charge for any of these services. We are experts at helping music teachers become comfortable with technology!

QuaverMusic.com understands that Puyallup has chosen Schoology as its LMS partner for the forseeable future, and that Puyallup desires that QuaverMusic.com integrate with Schoology. Schoology states support for the following IMS Global standards:

- Learning Tools Interoperability (LTI) v1.2: Integration method for granting instructor or student access to publisher content from within Schoology.
- **Common Cartridge v1.2:** Allows for the transfer of content between a publisher and Schoology, including learning objectives/standards.

QuaverMusic.com also supports the LTI, Common Cartridge, and OneRoster standards and has plans to support the QTI standard, and can therefore integrate with Schoology. QuaverMusic.com agrees to implement with Schoology as specified by the district and to the extent that Schoology supports. QuaverMusic.com can only be held responsible for its portion of the integration, but agrees to work with Schoology as a valued partner to resolve any issues that may arise.

Puyallup School District is granted the option to opt out of the contract, receiving a refund for the unused portion of the license term should QuaverMusic.com fail to integrate with Schoology within an agreed-upon timeframe.
