I mean, chalk isn't really property damage. I would issue lunch detention for using district resources to advertise for a non school sanctioned club/event. I would also explain if this happens again we could look at considering exclusionary discipline.

Yes I will add that too. I talked to mom and sent an email. I think I was more thinking the property damage price.

Didn't you talk with her last week about parking on campus to bring stuff to set up the table for the advertisements on 2nd Avenue?

Yes that was going to be my question - there isn't anything in SWIS from last year with the stickers. If I recall it was a verbal/conference to not post them because of damage to property and she did not post another sticker so no other step was recorded. I don't have a statement from her either bc I think you met with her as prep for the other walk out. I did meet with her as well I think before that to have the conference about stickers. I will put that into SWIS and date it for before the last walk out.

She needs a consequence so I would take her statement and we may need to consider moving towards exclusionary since she keeps using school property to advertise. Not sure we'll issue exclusionary, but I would get her statement and at minimum issue lunch detention. I'll call Sherri when I land about it
