Hi Pender,

As you likely know, the threat to federal funding by the President is based on a transgender student from Greely winning the pole vaulting state championship this week. I am wondering if the Governor has plans to change course or not? It is important for my district to know this as soon as possible given the national attention this is currently receiving, and will likely continue receiving in the near term. Having this information would help with messaging one way or the other. Any insight or information you can offer would be appreciated.
