OUR FIGHT DOES NOT END HERE.

Our government continues to terrorize our communities with the threat of mass deportations, and they will only become more sophisticated and secretive in finding partners to carry out this policy. We will continue to fight these injustices and demand accountability from corporations and politicians.

***THERE ARE FIVE KEY
COMPANIES THAT PROP UP
ICE'S ABILITY TO FUNCTION***

HILTON HOTELS

- **Why is this a good target?** Hilton houses ICE. Most communities have a Hilton near them, many schools have Hilton contracts. Hilton's already feeling the heat.
- Demand your school cut ties with Hilton, then **host a wide-awake action** if they don't listen:

FLOCK CAMERAS

- **Why target FLOCK?** There's real momentum: Dozens of cities have cancelled FLOCK contracts, and even Amazon Ring just dropped its FLOCK partnership!
- Universities and schools have direct contracts with FLOCK for cameras on their campuses.

Demand Lowe's DROP FLOCK cameras

Lowe's is one of FLOCK Safety's biggest commercial customers. That makes anyone passing through Lowe's parking lot a vulnerable target for surveillance and ICE harassment, especially black and brown people. But Lowe's is already worried about how this partnership is making the company look bad – so with enough pressure we can get Lowe's to Drop FLOCK!

ENTERPRISE CAR RENTALS

- Enterprise rents cars to ICE in cities like Minneapolis.
- Our colleges contract with Enterprise to get cheaper deals on car rentals.
- If our colleges cut off their Enterprise contracts, Enterprise will feel pressured to side with us and drop ICE.

TARGET

- Headquartered in **Minneapolis**; colleges & universities are **major institutional purchasers** of Target: **higher education is central to Target's business model.**
- Take action: **demand that your campus cuts ties with Target** until they take a public stand to oppose ICE, post clear signage, and train staff on how to respond when ICE enters the workplace.
