Public Schools: AI Working Group

The California Public Schools: Artificial Intelligence (AI) Working Group, established under Senate Bill (SB) 1288 (2024), brings together educators, students, experts, and educational partners to develop guidance and model policy for the safe, equitable, and effective use of AI in schools.

Convened by the California Department of Education, the California Public Schools: Artificial Intelligence Working Group includes educators, students, administrators, classified staff, higher education representatives, and industry experts. Members meet publicly to develop statewide guidance and a model policy, addressing topics such as data privacy, academic integrity, professional development, equitable access, and effective classroom integration. All meetings are subject to the Bagley-Keene Open Meeting Act.
