OEA REPRESENTATIVE ASSEMBLY

2026 Representative Assembly Handbook

April 17-18, 2026

Holiday Inn Portland – Columbia Riverfront

OEA encourages all delegates to use their gender pronouns when identifying themselves on the floor of the representative assembly.

The mission of the Oregon Education Association is to unite the public education profession and advocate for those professionals to ensure quality public education for students in Oregon.

Why is OEA Membership Important to **YOU?**

Educator-led Community

Have you ever found yourself in a conversation about education with people who have never worked in a school and know nothing about what it takes to help students learn? OEA is there for you — we are a community of educators, and being a member means having access to new ideas, best practices and a whole community that just “gets it.”

Defending and Shaping Public Education

As a member of OEA, you’re an active participant in the decision-making processes that guide the association. Find the opportunity that fits you best: become a building representative; attend our annual Representative Assembly as a delegate; serve on a committee or task force; or run for office at the local, state, or national level.

Perfecting Your Professional Practice

OEA provides high-quality professional development, advocacy and leadership training, through the OEA Union School and/or your local association. When you have questions about licensure, National Board Certification, special education training, or equity work in your local district, you can find answers through our Center for Great Public Schools.

Building Power

OEA members have achieved great wins for students and public education – electing pro-public education candidates from school board to Governor, passing local bond and levy campaigns, successfully lobbying for increased funding and other important legislation, and protecting students and educators at the ballot. OEA is also on the frontlines, ensuring that all educators can count on a safe and fair retirement.

Gaining Peace of Mind

OEA is here to support you. Membership includes a liability insurance policy valued at \$1 million to protect you from any claim made against you in the workplace (as well as protection in a litigious environment). You’ll also have access to legal guidance and expertise in employment matters beyond your contract.

Building Economic Security

OEA members have access to merchandise and service discounts through NEA Member Benefits, which help improve the overall quality of life for you and your family.

A Year Worth Your Time

What a year.

So many things have happened since we were last together a year ago. OEA members showed up for **No Kings Day!** in numbers that stopped traffic from Portland –Eugene – to Astoria and Hermiston. They packed training rooms across Oregon, from Bend to Klamath Falls. They came to learn how to protect students and families when federal agents appeared near school doors to support students, families and neighbors. They drove to food banks in Baker City and John Day with donated funds, meeting communities in real need.

Nobody assigned any of this. You just did it.

That tells you who we are.

At the bargaining table, our locals fought hard in one of the most difficult fiscal climates Oregon schools have faced in a generation. Seven districts and colleges stood within weeks of striking at the same time. At Central Oregon Community College, classified staff ratified a new contract one day before a strike deadline. Ninety-eight percent approved it. Workers earning \$18 an hour walked away with raises up to 28 percent.

Member victories. Real and earned.

In Salem, as part of a broad coalition, we lead the way and advocated for working families over corporate tax breaks and loopholes and successfully disconnected from the federal tax code to keep over \$300 million in Oregon. In Washington DC, our voices carried. In communities across every region of Oregon, we fed people, trained people, and stood with people.

President Enrique Farrera leads this team with clarity and conviction. Member voice, member value, member victory. Not a slogan. A standard. We have spent this year building the financial foundation and internal infrastructure to make those words real in every local, every school, and every bargaining unit across this state.

This gathering is our core democratic event as a union where you are here to set the vision and positions that guide our union forward as delegates. The work done over these past eight months has mattered deeply. So has every person in this room who made it happen. Thank you.

The months ahead will ask more of us. We will be ready.

APPROVED BY THE OEA BOARD OF DIRECTORS
JANUARY 23, 2021

Commitment to Equity Statement 1.11.21

Our Commitment to Equity:

Every student is entitled to be valued for the unique identities and experiences they bring to the learning environment, and every educator deserves to be supported in their profession. In educational settings, however, institutional racism and cultural marginalization caused by long standing practices of white supremacy have created barriers and disparities for many of Oregon's students and educators of color. As an organization at the forefront of public education and Oregon's labor movement since 1858, the Oregon Education Association (OEA) has undeniably played a role in perpetuating systems that devalue, silence, and discriminate against Black, Indigenous People of Color (BIPOC) and other marginalized groups. Our union has, for too long, operated in a manner that elevates and normalizes white supremacy.

We are writing the next chapter of our story.

Looking deeply at our own experiences and preconceived notions around race and equity—how white supremacy and privilege shape our perspectives, attitudes, and actions – is only the beginning of this new chapter. We are committed to ending both our internal union racist practices, as well as the systematic racism that continues to perpetuate inequities in our educational institutions and communities where students, members, and staff live and work. We will champion members in both their individual and collective work to dismantle racism and bias in all forms. We will center our equity actions around the groups experiencing marginalization and oppression and will lead with BIPOC members in this work. Our commitment to equity and inclusion currently includes the following and continually expands:

- Advancing, centering and giving power to the voices and experiences of members, students, staff, and communities of color that have been traditionally oppressed and invisible
- Eliminating from our policies, procedures and practices racism, discrimination, intolerance, and bias
- Organizing, creating and supporting programs that eliminate cultural and institutional barriers in our educational settings and workplaces

This is a journey. For some it will feel like we are moving too slowly and for others too quickly, but we are committed to moving forward. We are deeply committed to the belief that our attention to equity, inclusion, dismantling of white supremacy, racial and social justice will build conditions in which **ALL students, OEA members, and OEA staff can thrive**. Together, we must take responsibility and accountability for creating an equitable system for Oregon's diverse students, educators, and communities.

In Solidarity,
Oregon Education Association

CHRIS SCHWEIZER

STATEMENT:

As an organizer and elected OEA Board Director, I have championed democracy and worked hard to build a fighting union that represents all educators. I will do the same while serving on the OEA Executive Committee as your Region 1 Vice President. My priorities include growing our union by organizing unrepresented education workers, building out a statewide training program that ensures there are skilled reps and organizers in every worksite, and most importantly, waging a statewide campaign to make the wealthy pay their fair share to fully fund our schools. To do this, I will leverage the extensive training and experience I have in organizing, rep work, labor theory and history, accountable governance, and my relationships with member leaders and community allies around the state. Your vote for me is a vote for democracy, transparency, solidarity, and strategy.

VALERIE SCHILLER

STATEMENT:

Since COVID, OEA has faced significant decisions regarding cost-cutting and organizational capacity. OEA cannot be everything to everyone. OEA must prioritize the representative assembly delegate experience and its year-round relationship with members. The profession of education—the working and learning conditions educators organize, bargain, and enforce over time—needs to be our center.

The last three years on the OEA Board of Directors, I have advocated strengthening communication and connection, even when it has not been popular. We need transparent internal processes our UniServ Councils and locals can look toward with confidence. The decisions which shape our organization over time must be brought to our largest democratic body—the Oregon delegation. The best leaders are showing up, listening.

Electing me to serve means having a courageous and multi-perspective voice at the table of the Executive Committee and in budget conversations, striving to represent the will of members and our profession.

STATEMENT:

For more than six years, I've served our union with consistency and purpose because this work matters. Through crisis, conflict, and change, I have stood shoulder to shoulder with members, listening to their experiences and organizing across roles and geography to turn frustration into collective action. Leadership means being present when it's hard, accountable when it counts, and grounded in member voice.

Region III is vast and powerful. As your Region III Vice President, my work is and will always be rooted in relationships, trust, and belonging, so that no educator - whether licensed, ESP, or community college - feels powerless or unheard.

My values are clear: transparency, dignity, and strong, fully funded public schools.

2026 OEA RA Operating Procedures

1. The President of the Association or the President's designee shall preside at the meetings of the Representative Assembly (RA).
2. The Assembly shall have an official Parliamentarian to advise the presiding officer and to help delegates who wish to submit motions. Parliamentary questions raised on the floor must be directed to the presiding officer. The presiding officer rules on all procedural questions.
3. **Credentials**
 - a. The Credentials Committee shall report the number of delegates and alternates registered. Additionally, the Credentials Committee shall report at the first business meeting the racially and ethnically diverse delegates who are registered and the minutes shall report the number of racially and ethnically diverse delegates who attended the RA.
 - b. A member registered as an alternate can, upon clearance by the Credentials Committee, be transferred from alternate to delegate at any time during business meetings. An alternate once seated as a delegate cannot be replaced by the original delegate until the next scheduled meeting break (lunch - recess of the session).
 - c. Late registrants shall be seated during the first and second session of the OEA Representative Assembly.
 - d. Delegates participating in the virtual sessions of the RA must identify themselves with their name and local to be in the virtual sessions. Delegates shall not share log-in links or unique ID with any other individual.
 - e. For in-person sessions delegates shall be required to wear the badge issued by the Credentials Committee for admission to the assembly hall.
4. **Resolutions**

Delegates who wish to make changes or additions to the Resolutions must submit their ideas, in writing, to the Committee. Amendments may be submitted to the committee in writing at any time during the year but must be submitted before the end of the final Resolutions Committee hearing. After the hearing(s), the Committee shall meet to consider proposals they have received. If the Committee decides to make any further changes, it will provide copies of the changes to the delegates.
5. **New Business**
 - a. A New Business Item submitted by any delegate on the official form will be distributed by the start of regional Caucuses. All New Business Items must be submitted by 11:59 PM the Saturday before the OEA RA; amendments may be submitted by the maker no later than 12 noon the Wednesday the week of the RA, for update without debate. The New Business item shall also include a statement of rationale and will be identified with the name and board district number of the motion maker.
 - b. The Chair may set aside any NBI that would be impacted by a Bylaws or Policy Amendment that has been duly submitted and not acted on by the RA prior to this time.

- c. Any member who has an idea for a New Business Item (NBI) may submit it for action at the Representative Assembly (RA), but a delegate, however, must move it on the floor of the RA.
- d. Each NBI must be written on the electronic motion form, include the name of the maker and include both the action to be accomplished through the NBI and a rationale.
- e. New business shall be specific in nature and terminal in application, shall concern issues beyond one local, and shall not call for OEA to do work that is already in progress. Per OEA Bylaw Article VIII, section 4, new business shall not call for budget appropriations. New business items that do not meet these criteria shall be ruled out of order.
- f. OEA will generate a cost range for each NBI. At the maker's request a costing summary will be shared.
- g. All NBIs will be reviewed by leaders and/or staff; the author will be notified once the review is complete to clarify any points in the NBI, including if the reviewers believe the NBI may be ruled out of order or if the main motion contains the rationale.
- h. The maker has the right to modify the business item or withdraw it prior to the final submission deadline.
- i. Concepts for changes to NBIs may be made by any delegate at the NBI hearing or directly to the maker.

6. **Legislative Objectives**

- a. The proposed Legislative Objectives will be provided to delegates and a hearing will be held.
- b. Delegates may propose additions or changes to the Proposed Legislative Objectives by submitting their changes through the online submission form, to the chairperson of the Legislative Advisory Council no later than the conclusion of the final hearing.
- c. A maker of a motion for Legislative Objectives will be allowed to update their motion without debate if that amendment is submitted by Thursday prior to the Representative Assembly.

7. **Elections**

- a. A member is considered nominated upon receipt of completed nomination forms, or upon nomination from the floor. Courtesies extended to candidates, such as display space, will not be extended to anyone prior to their being nominated.
- b. For each office the president or their designee will announce the names of members who have been duly nominated as candidates and will allow additional candidates to be nominated from the floor. No nominating speeches or statements will be allowed. Nominations do not require a second.
- c. Contested elections for State President shall include a debate between candidates on the OEA-RA floor. The debate shall be moderated by a panel of five OEA members who are not delegates to the OEA-RA. The debate shall feature central issues submitted in advance by delegates. The format for the debate will be a three-minute opening statement for each candidate, followed by three cross-examination periods of five minutes each according to the top three delegate issues, and ending with a three-minute closing statement for each candidate. Candidates shall rotate the order of speaking. Each cross-examination period will begin with a moderator summarizing the central issue delegates submitted in advance and candidates responding in turns with how they intend to address that issue for the organization.

In the event there is only one candidate for State President, instead of a debate, the candidate is allowed five minutes to address the delegates and ten minutes for answering questions of delegates. Questions will be limited to 1 minute, and answers will be limited to 3 minutes.

- d. Contested elections for State Vice President shall include a debate between candidates on the OEA-RA floor. The debate shall be moderated by a panel of five OEA members who are not delegates to the OEA-RA. The debate shall feature central issues submitted in advance by delegates. The format for the debate will be a three-minute opening statement for each candidate, followed by three cross-examination periods of five minutes each according to the top three delegate issues, and ending with a three-minute closing statement for each candidate. Candidates shall rotate the order of speaking. Each cross-examination period will begin with a moderator summarizing the central issue delegates submitted in advance and candidates responding in turns with how they intend to address that issue for the organization.

In the event there is only one candidate for State Vice President, instead of a debate, the candidate is allowed five minutes to address the delegates and ten minutes for answering questions of delegates. Questions will be limited to 1 minute, and answers will be limited to 3 minutes.

- e. Each candidate for Equity Director is allowed 5 minutes to address the delegates. Delegates shall have 20 minutes to ask questions of Equity Director candidates. Each question shall be answered by all candidates and candidates shall rotate the order in which they answer questions. Questions will be limited to 1 minute, answers will be limited to 3 minutes. In the event there is only one candidate, question time will be limited to 10 minutes. If a recognized delegate begins a question, and the time allotted for questions expires during the question or answer(s), time will be extended accordingly so that both the question and answer(s) may be completed as prescribed above.
- f. Each candidate for Regional Vice President will be allowed 5 minutes to address the delegates. Question and answer time will not be provided for Regional Vice Presidential candidates as a part of the regular session agenda.
- g. Each candidate for NEA Director will be allowed 5 minutes to address the delegates. Question and answer time will not be provided for NEA Director candidates as a part of the regular session agenda.
- h. Each candidate for ESP Director and ESP Proportional At-Large Director will be allowed 3 minutes to address the delegates. Question and answer time will not be provided.
- i. For initial and runoff elections, the delegate registered 15 minutes before the polls open shall be the official voting delegate for that election.

8. **Candidate Campaigning**

- a. Candidates may place material only on the delegate tables in the Assembly room. Distribution of the material may not take place while the RA is in session and may not disrupt any RA business including hearings.

9. Meetings in conflict with the RA, hearings or regional caucuses may not be scheduled without the approval of the OEA President in order to not conflict with delegates' duties of attendance at regional caucuses, hearings and business sessions.
10. For the purposes of budgeting, the RA will conclude at 8 pm on the last day and all unfinished business will be referred to the OEA Board of Directors.
11. For the purposes of budgeting, the OEA Budget Committee has approved up to \$100k for the cost of NBIs. Any NBIs adopted by the assembly that exceed this allotted amount will be forwarded to the Budget Committee for final approval pending available resources.
12. Floor-Approved NBIs that require additional positions (regular, temporary, staff, elected) will automatically be referred to the Budget Committee and the OEA Board of Directors for final approval pending available resources.
13. Delegate expense vouchers shall be submitted to the OEA within 30 days. Vouchers not received within 30 days may not be paid.
14. Minutes of the OEA RA will be posted on the OEA website within 30 days after the adjournment of the Representative Assembly.
15. Display space or meeting rooms may be allocated to candidates or groups. Since space is limited, requests should be made as soon as possible, but no later than three weeks before the RA. Allocation will be made or refused based on these priorities and available space:
 - a. Official OEA committees, projects, and groups.
 - b. Candidates for OEA elected office - if they have been nominated.

Rule 5. Floor Debate

 - i. In the event no speaker wishes to be recognized in opposition to the first speaker, debate shall be closed except as follows.
 - ii. If after the maker of the motion has been allowed to speak in favor of the motion, no speaker wishes to speak in opposition to the motion, one additional speaker in favor will be allowed.

BYLAWS AMENDMENT E

The Board of Directors forwards the Proposed Bylaw Amendment E with a DO PASS Recommendation.

ARTICLE I. MEMBERSHIP AND DUES

Section 8. Reserve Members

- e. \$5.00 per member annually shall be assessed in order to promote the interests of public education; and
- f. Every five years, an analysis will be made of the total cost that would result if the five largest OEA locals suffer a Relief Fund applicable need up to a 30-day work stoppage at the same time. Based on this number, the balance of the Relief Fund should be as follows: If the Relief Fund amount is less than the total cost plus 10% then there will be a \$10 assessment per member per year until that number is reached. If the Relief Fund amount is greater than the total cost plus 10% then no \$10 assessment per member will occur.
- g. \$20 per member annually for the Public School Funding Campaign shall be assessed to fund activities to support OEA's efforts to improve and protect public school funding in the state of Oregon, for a period of 3 years, unless the OEA Representative Assembly acts to extend the increase for an additional period.**

Rationale: This would support the Public School Funding Campaign.

POLICY AMENDMENT A

The Board of Directors forwards the Proposed Policy Amendment A with a DO NOT PASS Recommendation

New Policy in 2300 – OFFICERS OF THE OEA

Executive Attendance at Political Planning Sessions

A. Mandatory Participation: The President and Vice President (or their designated executive proxies) shall be required attendees at all formal political planning meetings conducted by the Government Relations department. This includes, but is not limited to:

- **Legislative strategy development sessions.**
- **Candidate endorsement planning and evaluation.**
- **Political Action Committee (OEA) strategic roadmap meetings.**
- **Coalition-building strategy sessions with external political partners.**

B. Notification: The Government Relations Director shall provide the President and Vice President with no less than 48 hours' notice (with the exception of legislative deadlines that are less than 48 hours) for all scheduled planning meetings, including a formal agenda and relevant briefing materials.

C. Reporting: The President shall include a summary of strategic alignment from these meetings in their regular report to the OEA Board of Directors.

Rationale: In the current political landscape, the intersection of education policy and legislative action is more volatile than ever. This proposal ensures that the elected voice of our membership—the President and Vice President—is not just briefed on political outcomes but is an active participant in the strategic architecture of our Government Relations (GR) efforts.

Policy 2410.III

Legislative Advisory Council Meeting Schedule and Attendance

A. Regular Meeting Schedule: The Legislative Advisory Council (LAC) shall meet twice per month, or every two weeks, during the months of September through May, or whatever the length of the legislative drafting period.

B. Seasonal Exceptions: The Council is not required to meet during June, July, and August, unless a special meeting is called by the OEA President or the Council Chair to address emergency legislative matters.

C. Flexibility for Non-Drafting Periods: In months where legislative concepts are not actively being written or amended, the Council may, by a majority vote of its members, elect to reduce the meeting frequency to once per month.

D. Executive Participation: The OEA President, or a designated executive officer (Vice President or Secretary-Treasurer), shall attend all meetings of the Legislative Advisory Council. The President or their designee shall serve as a liaison between the Council and the OEA Board of Directors to ensure strategic alignment.

E. Notification: The Government Relations Director shall ensure that the President and Council members receive meeting notices and relevant legislative drafts at least seven (7) days before any scheduled meeting.

Rationale:

- Strategic Consistency: By adopting a mandated bimonthly schedule, the LAC ensures OEA's legislative agenda does not lose momentum during the "interim" months of the legislative cycle.
- Resource Management: Allowing the council to scale back to once-monthly meetings when legislative concepts are not being actively drafted provides necessary flexibility and respects the time of member-leaders.
- Executive Alignment: Requiring the President or their designee to attend ensures that the highest level of OEA leadership is directly involved in the policy-making process, rather than receiving second-hand reports. This facilitates faster decision-making when the Association must pivot quickly during a legislative session

Policy 5000, Section III.B.3

B. Employment procedures of UniServ professional personnel

3. The following is a suggested list of the minimum qualifications for the position of UniServ Consultant:

- a. Have an earned bachelor's degree, or equivalent.
- b. Have five years ~~teaching~~ experience in **public education**, ~~or equivalent work experience.~~
- c. Have demonstrated leadership ability.
- d. Have familiarity with professional organization work, especially with the work of a local education association.

Rationale: Unlike other staff positions the role of the UNISERV consultant should be intimately familiar with public education before taking on the role. They should know the ins and outs, the day to day minutia of how district management and school staff function. No other staff position works so closely with local unions and districts in bargaining and grievance. It's a position that can't afford to train someone up while experienced in union work outside of education but not experienced as an educator themselves. No amount of field training can make up for having lived and navigated working in education before moving into this staff position. It should be a role OEA actively looks for from local union leadership, even if from an out of state local, and members who are wanting to step into the staff side of union work.

2026 PROPOSED RESOLUTION AMENDMENTS

What is a Resolution? A formal expression of opinion, intent, belief, or position of the Association adopted by the OEA Representative Assembly to provide the direction in which the Association should be moving. The OEA board of directors, OEA elected leaders, and staff use these resolutions as a guide to carry out the work of the Association.

The date in parenthesis indicates the year when the resolution was adopted. Subsequent dates indicate revision.

Revisions: New language is underlined, deleted language is ~~struck through~~.

RESOLUTION AMENDMENT A

The Board of Directors forwards the Proposed Resolution Amendment A with a DO PASS Recommendation

I.2 School Funding

The Oregon Education Association believes the State of Oregon is responsible for providing stable and adequate funding for public schools. The Association believes that local districts, in partnership with state and federal governments, must provide a free, **appropriate**, equitable and quality **public** education for every student by securing sufficient funding to maintain and to enhance excellence in each public school within every public school and community college district. (1990, 97, 2004, 08, 11, 26)

Rationale: This amendment strengthens the Association's core position by aligning our shared beliefs with the federal legal protections of the Individuals with Disabilities Education Act (IDEA). By explicitly adding "appropriate" and "public," we anchor our funding demands in the mandate of a Free Appropriate Public Education (FAPE) and protect our schools against the diversion of funds to private entities. Currently, shifting budgetary definitions and the use of passive language at state and local levels often obscure underfunding; these additions provide a clear, legally grounded standard of accountability. We must ensure the State is held responsible for providing the specific, individualized resources necessary to maintain excellence in our public institutions for every student.

RESOLUTION AMENDMENT B

The Board of Directors forwards the Proposed Resolution Amendment B with a DO PASS Recommendation

IV.12 Decision Making in School Budgeting

The Oregon Education Association believes all school employees should be represented in the school budget process in establishing priorities, determining of funds, and ensuring that adequate funding be allocated in a timely manner to finance collective bargaining agreements. **The association also believes that state and federal governments, along with local**

districts, have a responsibility to report the details of their budgets with transparency. When considering changes to the budgets, local districts should prioritize the impact on the staff, students, and community. (1988, 89, 91, 97, 22, **26**)

Rationale: Economic instability at federal, state, and local levels has increasingly led to budget reporting that utilizes passive language and fluctuating definitions to obscure cuts and shift accountability. This lack of transparency forces staff and students to navigate shifting priorities and vague expectations that undermine the collective bargaining process. This amendment establishes a clear expectation for budgetary transparency across all levels of government and mandates that local districts prioritize the tangible impact on human beings over administrative convenience. By formalizing this belief, the OEA provides local chapters with the leverage needed to demand clear, honest, and people-centered financial reporting during contract negotiations and budget cycles.

RESOLUTION AMENDMENT C

The Board of Directors forwards the Proposed Resolution Amendment C with a DO PASS Recommendation

II.56 Artificial Intelligence

The Oregon Education Association believes that the development and expanding use of Artificial Intelligence (AI) technologies will continue to impact students, educators, public education, and the greater community. The Association also believes that the use of AI in public education should align with the following principles:

- a. AI tools should support the needs of students and educators.
- b. Administrators should not require educators to use AI tools as a mode to decrease workload.**
- c. The implementation of AI must be equitable, accessible, and inclusive to ensure that no community is advantaged or excluded.
- d. AI tools and their implementation must be free of cultural, racial, and gender biases, and they should not perpetuate or amplify existing biases or discrimination.
- e. Educators should be involved in the development of best practices for pedagogical applications of AI.
- f. The use of AI in public education should be transparent, including its applications, what data is collected, and how that data is used.
- g. AI should not compromise the privacy of educators, students, or their families.
- h. Educators and students should be provided guidance and training on the ethical use of AI tools.
- i. Evaluation of AI implementation should be ongoing to ensure it supports the needs of students and educators and aligns with ethical standards and practices.
- j. AI tools should not be used as a means to increase assigned workloads or decrease school staffing.**

(2024, **26**)

Rationale: As Artificial Intelligence becomes more integrated into school systems, there is an increasing risk that administrators will view these technologies as a "shortcut" to justify larger

class sizes, reduced staffing, and increased assigned workloads. While AI may offer specific efficiencies, it cannot replace the essential pedagogical expertise and human connection provided by professional educators. This amendment establishes a critical safeguard against the use of AI as a tool for "workload creep" or staff reduction. By formalizing these principles, the OEA ensures that AI implementation remains a support for the profession rather than a justification for de-professionalizing the classroom or creating unsustainable labor expectations.

RESOLUTION AMENDMENT D

The Board of Directors forwards the Proposed Resolution Amendment D with a DO PASS Recommendation

II.23 Inclusion

The Oregon Education Association believes that placing students with disabilities in the most appropriate, least restrictive environment is beneficial for all students. OEA further believes that

1. There should be a full continuum of placement options and services available to all students with disabilities.
2. Placement should be based on individual needs rather than on space availability or on funding. Student placement must be examined on a regular basis to ensure appropriateness whereby all needed services and support are available and should not be made disproportionately by ethnicity or gender. Necessary building staff modifications must be provided to facilitate such placement. If additional space or funds are necessary, they are provided.
3. Adequate time should be provided for all regular and special education teachers/specialists, educational assistants and other relevant ESP staff, and faculty to work cooperatively in the development of the Individual Family Service Plan (IFSP), Individual Educational Plan (IEP), and/or Section 504 plans prior to placement.
4. Students with physical disabilities or medical needs requiring nursing procedures should have their medical needs met by professional nurses or trained medical personnel as approved by the student's physician.
5. All affected staff members should have an appeal procedure regarding the implementation of the Individual Family Service Plan/Individual Education Plan (IFSP/IEP), and/or Section 504 plans especially in terms of placement.
6. Adjustments should be made in class size and caseload using weighted formulas to accommodate the demands of the Individual Family Service Plan/Individual Education Plan (IFSP/IEP), Section 504 Plans, and/or other documentation and the needs of the student.
7. All staff, parents/guardians, and community should be adequately prepared for their roles through fully funded appropriate training.
8. **After** if the IFSP/IEP team determines that inclusion is the appropriate placement, sufficient support must be available for the students, teacher(s), instructional assistant(s), and all related student instructional support personnel (SISP). The educational environment must match the learning needs of all students.

9. The success of inclusion should be evaluated considering the effect on all students. If placement revision is required, even if temporary, then it will happen in a timely manner.
10. All affected staff members should have the right to disagree with any provision of the Individual Family Service Plan/Individual Education Plan (IFSP/IEP) and/or Section 504 Plan without recrimination. (1994, 97, 2005, 08, 10, 16, 17, 21, 22, **26**)

Rationale: This amendment clarifies the distinction between legal "placement" and the foundational value of "inclusion." Inclusion should not be viewed as a specific location or a conditional placement option; rather, it is a commitment to ensuring every student finds belonging within the school community to the greatest extent possible. By removing conditional language, we affirm that the IFSP/IEP team is the sole authority in determining appropriate placement based on individual student needs. This change ensures that regardless of where services are delivered, the focus remains on providing sufficient staffing, resources, and student instructional support (SISP) to match the learning environment to the student—rather than forcing the student to fit a pre-determined budgetary or spatial model.

RESOLUTION AMENDMENT E

The Board of Directors forwards the Proposed Resolution Amendment E with a DO PASS Recommendation

NEURODIVERSITY RESOLUTION

II.25(new) inserted between Inclusion and Educational programs for Emerging Bilingual and Multilingual Students

The Oregon Education Association believes in the concept of neurodiversity, and that neurodivergent students and educators should be honored and respected for their contributions to the education setting and the greater community. OEA affirms that neurodivergent students and educators require varying supports and accommodations employed at different times to maximize their individual and unique abilities, needs, and circumstances.

The Association further believes that neurodiversity affirming practices are essential components to halting discrimination, improving access to the educational setting for all students and educators, and protecting the mental health of educators and students of all neurotypes. OEA believes that formalizing practices such as these reduces stigmas and discrimination towards neurodiverse persons.

The Association further believes that neurodivergent students and educators should have full and consistent access to necessary accommodations and support throughout the school/work day and during all school-related activities in order to improve participation and learning in the educational setting. Educational settings should avoid instructional techniques or policies that induce trauma or cause students or educators to lose a sense of autonomy and personal agency. Education and workplace policies should be inclusive of neurodiversity for all students and educators.

The Association further believes that all students and educators benefit from learning ways to interact with and support people of all neurotypes. Areas of skill development should include (but not be limited to): self-advocacy, problem solving, safety, autonomy, and observation skills. Instructional strategies should utilize and maximize an individual's strengths and interests and should avoid use of a deficits-based approach. (2026)

Rationale: The identification and understanding of neurodivergence—including autism, ADHD, and other neurological differences—have grown exponentially, impacting a significant portion of our student and educator populations. Currently, our Resolutions lack a formal framework that recognizes neurodiversity as a fundamental aspect of human diversity rather than a "deficit" to be corrected.

This resolution establishes a vital foundation for the OEA to lead in neurodiversity-affirming practices. By formalizing these beliefs, we protect the mental health and autonomy of our members and students, ensuring that accommodations are viewed as a right of access rather than a burden of compliance. Adopting this resolution aligns Oregon with interstate progress in education advocacy and provides our bargaining teams with the necessary mandate to fight for inclusive workplace and classroom policies that honor the unique contributions of all neurotypes.

RESOLUTION AMENDMENT F

The Board of Directors forwards the Proposed Resolution Amendment F with a DO PASS Recommendation

1.12 (new as I.12 after I.11 Systemic Inequity and before Community schools): School funding must be equitable

OEA believes that all tax revenue changes must be equitable. We believe in more heavily taxing the ultra-wealthy (billionaires and corporate moguls) and the top 5 percent of income earners,

We oppose austerity measures and regressive taxes that place a disproportionate burden on low and middle income families. Credits, deductions, and exclusions should be structured to heavily favor the most marginalized and vulnerable members of our communities. (2026)

Rationale: To ensure the long-term survival of public education, the OEA must advocate for a revenue system that addresses the widening gap of income inequality in Oregon. This resolution establishes a clear, proactive stance against austerity and regressive tax models that disproportionately burden our members and the families we serve. By advocating for a progressive tax structure that targets the ultra-wealthy and corporate interests, we move away from "bare-minimum" funding and toward a system where those with the greatest ability to pay support the public good. This amendment provides our legislative team with a focused mandate to oppose tax shifts that benefit the top 5 percent at the expense of our schools and most marginalized community members.

RESOLUTION AMENDMENT G

The Board of Directors forwards the Proposed Resolution Amendment G with a DO PASS Recommendation

II.72 Virtual Schools and Online Education

The Oregon Education Association believes online education can play an important role in the lives of students and educators. The Association supports virtual schools and online education sponsored by state public school entities:

Such virtual schools and online courses must meet the educational standards, staffing ratios, educator licensure and certification requirements, and professional staff criteria of traditional public schools. The proliferation of online programs should not:

- 1.—impair public school district finances;
- 2.—promote or fund private vendor ‘education management’ operations;
- 3.—disrupt the local collective bargaining agreement. (2013)

II.72 Digital Learning

The Oregon Education Association believes that quality digital learning can create or extend learning opportunities but should not replace regular face-to-face interaction among students, peers, and instructors.

The Association further believes that virtual learning should be a viable option for public school students and staff who thrive in that environment or are under extenuating circumstances. Virtual learning should be designed and utilized strategically and in the best interest of students and staff.

The Association also believes that students who participate in developmentally appropriate digital learning should receive the preparation and support necessary to enable them to function effectively in an online environment and as successful community members, which at a minimum should include—

- a. **Supervision and instruction provided by fully qualified, certified, and/or Oregon licensed educators.**
 - b. **Appropriate services, equipment, technical support, libraries, and laboratories.**
 - c. **Accurate course descriptions and clear expectations prior to enrollment.**
 - d. **Reasonable student to instructor ratios that allow for individualized interaction with instructors.**
 - e. **Opportunities for appropriate student-to-student interaction.**
 - f. **Curriculum approved courses comparable to similar courses delivered by traditional means and approved by the state education agency.**
 - g. **Courses that are transferable from school to school or for graduation requirements.**
- (2013, 26)

Rationale: The transition from "Virtual Schools" to "Digital Learning" reflects the current reality where online tools are integrated across all educational settings. This amendment establishes essential safeguards to ensure that digital learning is used as a strategic tool to extend opportunities. By defining specific requirements the OEA sets a high bar for quality that protects both student learning and educator working conditions. This update provides a clear mandate to hold state and local authorities accountable for the funding, infrastructure, and planning time necessary to make digital learning sustainable and effective rather than a burden on staff.

RESOLUTION AMENDMENT H

The Board of Directors forwards the Proposed Resolution Amendment H with a DO PASS Recommendation

VI.16 (new) Opposition to Artificial Intelligence–Powered Weapons

The Oregon Education Association affirms that:

The use of artificial intelligence in weapons systems raises profound ethical, humanitarian, and democratic concerns, including the delegation of life-and-death decisions to machines rather than human judgment.

AI-powered weapons concentrate extraordinary destructive power in the hands of a small number of governments, corporations, billionaires, and technology oligarchs, creating dangerous imbalances of power that threaten human rights, global stability, and democratic accountability.

The development and deployment of autonomous or AI-enabled weapons increases the risk of error, escalation, and unintended harm, while reducing transparency and the ability to hold decision-makers accountable.

The use of AI in warfare undermines the principles of human dignity, civilian protection, and the rule of law that educators and public institutions are responsible for upholding.

Therefore, the Oregon Education Association opposes the development, deployment, and use of artificial intelligence–powered weapons and supports international, national, and ethical efforts to prohibit or strictly regulate such systems. (2026)

Rationale: Artificial intelligence–powered weapons concentrate lethal power in unaccountable hands, erode human judgment, and threaten democratic oversight. Educators have an ethical responsibility to oppose technologies that endanger human rights, global stability, and the values public education exists to uphold.

Drivers for Future Financial Health of OEA

- We have had budget deficits since fiscal year 2018-2019. To **improve the financial health of the organization**, we must work toward a balanced budget.
- We need to continue to **increase membership** to further our organizing strength, grow in our union power and be a financially sustainable organization.
- We need to continue to focus on **controlling expenses**, while **growing revenue** as we stabilize the financial health of the organization.
- Healthcare, pension, and benefit expenses for OEA Staff are impacted by external factors such as interest rates, inflation, and investment returns.

Necessary Steps to Improve OEA's Financial Health

Required Steps:

- Continue to identify cost savings and process efficiencies to improve financial performance/results
- Continue to follow established reserve policies
- Maintain sound investment policies for OEA General Fund
- Develop strategies to make progress on long-term liabilities

Dues, Revenue, Expense Trends

Expenses generally outpaced revenue from 2017 to 2022, we have made focused adjustments in order to align expenses with our projected revenue for the past 3 years.

Membership Trends

OEA's membership trends have been impacted in the recent past by Janus v. AFSCME and COVID-19.

Continued efforts to organize potential members is important to the mission of OEA.
