

Engage with Us

MIT RAISE collaborates with organizations to design tailored, impactful solutions that build AI fluency at every level of education — drawing from the full breadth of MIT's expertise and research. Based on your unique goals, needs, and interests, our team will guide you to the most relevant and effective programs MIT has to offer.

fundamentals of artificial intelligence. Our materials are designed to spark curiosity, build critical thinking, and help young learners understand the growing role of AI in society. Explore our programs to get started and bring meaningful AI education into your classroom.

EXPLORE K-12 PROGRAMS

Higher Education & Workforce Pathways

MIT RAISE offers accessible, interdisciplinary AI education designed for both college and university students as well as lifelong learners and professionals. Through courses, tools, and research, we empower individuals to engage critically with AI and adapt to the demands of a rapidly evolving workforce. Whether you're in the classroom or advancing your career, RAISE is here to support your journey.

Global

MIT RAISE is committed to advancing human-centered AI education for learners around the world. Our programs are designed to be accessible, inclusive, and culturally responsive — ensuring they can be easily translated, adapted to diverse learning environments, and implemented in ways that reflect

local contexts. We work closely with educators and partners on the ground to create content that resonates with their communities, supports real-world learning, and empowers students to understand and shape the role of AI in their lives. Through this global approach, we aim to make meaningful, long-lasting impact — one classroom at a time.
